Thread: [\[FREE\] 333 Flares /w fire, blood, bullets etc. | Starter kit | Direct Download](#)

C-Only - April 29, 2013, 12:07 pm

No pictures in the thread, sorry. Will update ASAP.

Several hundred downloads, hope you all enjoy it.

This is a pack of 333 Flares for guys who dont have much or any at all yet.

You might already have some of these and that's why I've made a full preview off all the flares in the pack.

It also contains Bullets, blood, smoke, fire etc.

I have not made any of these myself, just found them around HF and other pages and now sharing.

I'll keep his thread updated as long as it is used.

More Starter Kits with fonts, wallpapers and a lot more will come with the time.

Rona™ - May 2, 2013, 8:46 am

Honestly, it looks like the same set of flares, textures, images, etc etc etc from every other pack.

But none the less, thanks for contributing to some starters that need this stuff.

What you're saying is right at some points. I think this contains 2 other packages from HF.

This pack it made of various packets from HF and other website and even a few from google(around the 80 of them).

That's why I called it a starter kit to give newcomers in the graphic section a fast way to get most of the stuff they might need to start out with.

That's the reason why I've been making a fonts collection too, that's going to have the title 'Starter Kit' too.

I'm very happy this was helpful as to many others of you!

The file is still getting downloaded by so many, I almost suspect someone shared it somewhere else.

Anyway, thanks to all the good feedback and keep sharing when you get far enough too! ?

Late response sorry.

I'm working on finding the pics since my old ones are suddenly gone.

I just got a new harddrive etc. so all my folders are in chaos.

Pictures should be up again in no time. That said I'm moving into a new house so it might take some time.. maybe.. maybe.

Still thanks to everyone who downloads!

Images are actually gone, they were hosted at Imageshack a long time ago before the website went full retard.

I'm working on retrieving the pictures from my old harddrive, has given me some troubles.

Hope you still enjoyed the files! ?
