Looks like some one just took a shit on it. The text on the edges look so choppy. I would give it 3/10

It really needs some work, not really a fan of it.

My Rating as stated above would also be a 3/10

Lol are you serious?

3/10 is way too high.

First of all, you can do this in a minute time.

Secondly, it's too choppy.

2/10 for the effort.

Grammatical correction: self of steam, not self steam

Self of Steam: Term used by members of the population that never advanced past third grade trying to say "self esteem"
