Thread: [Aim/Aol Securing Service.](#)

Isolate - May 5, 2013, 3:32 pm

Hello there HF, as the title states I am selling exactly as it says.

Some information.

Q: So how does this work?

A: So, first off we do not need your SQA! We will only need temporary access to the aim for 1-2 minutes and then you will be able to change your password.

Q: How are you securing it, does it mean you can get it back for us whenever?

A: Yes, I am able to retrieve and reset your password instantly in the case of it being jacked/scammed from you. (Sufficient proof must be provided)

A2: Although, if the Aim/Aol has a credit card attached it will take up to 3 days.

This is also the method I preformed on Satan.

Proof.

If a trusted Member can contact me and create a dummy Aim/Aol I will happy preform this on the Aim/Aol for them.

Price.

\$2 LR

Accepted Payments.

Liberty Reserve
