Candyflip2013 - May 11, 2013, 1:01 pm

Thank you very much :) :D Could you guys tell me how you got it decrypted? Not step by step, but with what tools?

AmericanHakku - May 11, 2013, 2:59 pm

Ya, me too, how do you do this? That way i dont need to ask people to do it for me.

Dongy - May 11, 2013, 4:22 pm

Hashcat. That's what I use atleast.

ImminentHB - May 11, 2013, 7:09 pm

[Hashcat](#) is a pretty fast WPA cracker. I'd recommend you get the tool and learn how to use it.

MHUi™ - July 11, 2013, 3:27 pm

Help pls
