Josh? - May 9, 2013, 11:29 pm

Send me a PM with the subject as "Coding Service" and tell me what you want made, and if you want the source code or not, when you want it done by etc, and then I'll make it, hopefully in the given time period, and then you can claim all the credit :) All I ask is that if you are feeling nice, donate by clicking the "Help me with l33t" button in my signature, or just leaving a thanks
