Price will be depending marker and on amount! I can also pay via WU but only for special cases.

I will pay via PayPal and I won't go first, unless you're extremely trusted! If you have ANY scam reports or disputes then you're off the list.

PM me here!

I can sell you \$4/M if you're paying via LR..

Those prices are way too low for PP.

Best I can do is like 3.75\$ PP

If I exchange I might get scammed and not willing to do that right now.

You wouldn't know unless you deal with wholesalers and people who market it, here it's 4\$/M and chances are you'd get a nice chargeback with the days to come, unless its a single individual who is buying it via LR. Just look at PA lol, even a caveman can figure out its dropping.

Mainly looking for EOC in bulk (0.20-0.21/M)

07 is a bit unstable right now and my buyer is buying at 3.2\$/M and I've seen it go from 3.5 to 3\$ to 3.2\$ so I'm not too sure I want to buy it right now :l

That's wayyyy to high, that's at 0.3/M and that's nowhere near the prices what they currently are.
