-mothered- - April 2, 2010, 4:28 pm

Judging by the overall options, It seems like It may do the job. I'll download, check It out later today and verify It's contents as to whether It's clean or not.

I didn't realise that the download Is via \$harecash. No disrespect, but I truly have better things to do with my time, rather than to fill a survey that I have no Interest In.
Not to worry, I'm certain other's will benefit from this. It seems like a great tool :)
