Thread: [First attempt at smudging V1 or V2?](#)

Mind Glowing - May 11, 2013, 1:22 am

Please tell me how I did and which one you prefer, cause I don't know at all if this would be a decent smudge after all :s

V1:

V2:

I think I messed up in V1 putting too many effects, instead in V2 I just deleted some effects and changed the clipping mask of the text which looks more cleaner to me, I guess... What do you think?

I like V2 but I don't like the test. I don't know, that's just me

Where is your username from by the way? I used to play gmod or CS:S with someone who had the same name.
