Thread: [what is up with hf now? terrible](#)

blackknight_ - May 11, 2013, 3:02 am

so my booter blacks booter is quite good.

Its god quality and its not one of the shitty ones. and my thread gets closed. and talking to the guy who closed it i cant get it opend. what do i have to say for this? make it open.

oh and the rep abuse in this place.. is unbelievable. You dont know how much rep abuse i get. oh and also one of my threads was deleted. a legit thread i was selling a facebook ebook. whats happening to hf?

???

Eagle 95 - May 11, 2013, 3:05 am

It was probably closed because it didn't follow new booter policy. I don't know if you are aware of it but here's the link: <https://hackforums.net/showthread.php?tid=3451922>

I'm not sure if you have read the new booters/stressers policy yet.

edit: Oh Eagle was too fast.

Yeah what eagle said, it didn't follow the new booter policy also you cant post a thread advertising your booter if you're not a upgraded member.

The new booter policy is probably what got your thread closed. Only make booter threads in the stresser testing forum.

Thats bullshit. so I CANT have my thread open? wow.

I dont see whats the point. ???

plus no one said anything about the ABUSE i get. Its not easy. Its stupid.

And now i have 0 rep.... there goes my future projects. thanks hf.

Please cry some more.

Maybe if you read the rules, this wouldn't have happened.
