??My story??

First you will be able to see my first post on Ewhoring when I was just starting and didn't have any luck nor skill. And then a new update.

I'm not a pro , rather a beginner.

So don't expect me bragging about 1000\$ I made in a week or such.

I think this needs to be said, due there are a lot of tips, tutorials, do's and don'ts , but none will really tell you what's it like in the beginning or which problems you might encounter .

Basically if you're getting interested or just starting to eWhoring don't expect money to fly right in your face. When I first started I thought to my self "easy cash, ill probably make 150\$ in few days" but no , I didn't .

Still today (4 days of eWhoring) I didn't make 1\$ but I'm not gonna make a thread saying it doesn't work or that is sucks nor will I give up due it does work , but needs dedication .

True that some people get lucky on their first day or make 500\$ of one guy, but you can't really compare your self to those people. Because maybe these guys spend hours up on hours reading threads , watching live streams of people eWhoring and making up their own plan how they are gonna do it or maybe they just started straight away and got lucky who knows.

The point is that some people have what it gets , they have a way to convince pedos or perverts to believe their story and know how to be patient, which from my own experience I was lacking .

If you don't get what I'm saying , think it as playing Skyrim , you don't start with 100 speech you have to practice make mistakes and work your way up :)

If you're like me (which I hope you're not) you will spend most of the time learning on your mistakes , seeing what goes and what doesn't. Learning to have patience and how to convince people to believe your story. You might spend 4 hours like me today doing VCW's and not get a penny rather see large amounts of penises ? .

The biggest achievement you can get from failures is being able to see what you did wrong and not to make same mistakes again. If you fail at seeing your own mistakes then its gonna take you much longer to figure it out.

You can always buy eBooks about eWhoring or read a free one, but it wont matter if you paid 50\$ or you get yourself one for free because none will actual tell you "Hey now you need to write this , do that, now smile , now try selling your pictures ..etc" . I'm not making a statement that you shouldn't buy or read eBooks (I bought one today from Bohemia and it gave me information I was lacking and some tips) but don't expect that an eBook will make you pro or tell you how to convince someone. If we were in Skyrim it probably would but we ain't in a game hehe ;)

To sum this all up if you're lazy to read, number one tip from me to you is :

1. Don't give up , you will fail but you will learn from it

2. Don't be afraid to make a mistake, or to try something new
3. Don't feel that you're the only one failing , because I'm right next you .
4. Don't be afraid to post a thread or ask people for help
5. And most important, if you see a guy starting to get nude please get a piece of paper and stick it over his display window.

I decided to write this because none actually gave me any heads up on what to REALLY expect , and if I had seen a thread like this my expectation's would probably be much lower and would feel much less like a failure that I feel right now.

??Hey guys??

It had been a month now that I had started eWhoring and as you can see from my thread that I made just 1 week in it had been rough. But after one of my friends on HF helped me out everything changed pretty rapidly.

I was making 100\$ per day for 5 days in row then it balanced out and I was getting 30-10\$ per day depending how much I dedicated time to it.

I though of making an eBook and selling it , but what's the point ? I would never be able to guarantee that you will make 100\$ or even 10\$ a day.

If I did I would be lien and scamming you.

How I made 100\$ per day you probably wonder ? Selling pictures, simple as that.

No, I didn't go on live chats and spam "selling pictures" or something like that, it basically comes up to site you're using , you have to keep in mind that none eBook will ever reveal the actual site they made most of the money on nor will make you rich, I'm pretty sure a lot of eBook sellers are gonna hate me for saying this but its true. Sadly neither can I give you the site I'm using due don't want it to get saturated , sorry.

Tips that I can give you now is that if you're sucking at VCW's and finding people on online chats try finding unsaturated sites. One example would be Tagged or such dating sites and then try chatting up your victims , or go straight to the problem (a problem you make up) but you really have to be sure that he wont back down . But again as I said before I can not and will not guarantee you any success it all falls on you / your knowledge of social engineering and a site you're using I cannot give you that you have to learn/find it on your own..

Well that's all that I have to say for now, I hope I didn't offend anyone :)

If you like the thread say thanks to keep it alive !

Good luck guys!

?? 3/10/2013 UPDATE ??

So I will show you now one issue I had with a posibble buyer. He pretty much figured it out that I't wasn't the "girls" paypal but mine. And he even had my name and last name due I'm using my personal buisness paypal. So here is the chat log :

--@--@--@--@--@--@--@--@--@--@--@--@--@--@--@--@

ME : this is my email of paypal **@gmail.com you can send your donations here :P

HIM : Got it. Doing it now.

You are not for real are you? Who is this (MY NAME) guy? I am not interested in funding your handler.

ME : It's my friends pp. I don't have a CC . He decided to help me out. I really don't see why it would be a problem of him helping me out?

HIM :Too many twists and turns. Sorry. I go for simple and direct. You still are a good artist but I don't believe you are who or what you represent yourself to be? I can not help you.

ME : check the picture. I made it so that people could see that im not fake. And Im sick of people call me fake. If you chickened out , say it so, dont find other reasons to cover up your fear.
(I made a picture where the girl is holding the paper and it says the date ,site and her nickname)

HIM : I am not saying the young woman in the picture does not exist. I am wondering why you don't have your own PayPal account or a Gift Rocket account or something in your own name. The other women on here that I have helped have accounts with their name on them. What keeps you from doing that?

ME : Well if you really need to know is that I had huge problem, I though I would never have to talk about it again but It looks like I will have to. 2 months a go I had my own paypal with my name , and was getting donations. And one guy , who seemed really friendly and everything donated me bunch of \$, basically as I used my own paypal to recieve the payment he had my name , email etc... He was able to track me on facebook, and stalk me there , then found my number started calling me. It was going on for almost 3 weeks. Everyday calls , threats that he will publish those photos if I don't meet me , or send him more pictures. I though I would never stop. I had to get a new phone, new email, facebook..etc. So I told my self I would never do that again ,and well as debts started to mass I didn't see any other choice but to do it again. (start selling photos) But now I was smart enough to use my friends paypal. His more like a middle me for me. I feel more safer in my own skin.

Have some respect and compasion before you judge a person , due you don't know their stories and experiences they had.

HIM It really sucks that you had that experience with that psycho a-hole. I apologize for judging you. My bad.

ME : Thanks I usually don't like to talk about my problems but sometimes i guess you have to So like could you still donate and everything like we planned ?

HIM : Will help soon. Currently refunding PayPal

--@--@--@--@--@--@--@--@--@--@--@--@--@--@--@--@

At first I felt like I'm gonna lose this potential buyer, but luckily I was able to make him believe and get 120\$ from him for 2 videos.

Everything is possible if you try hard enough.

THO keep in mind that this might not have worked if the guy wasn't so "nice" and "understanding" . But its still a good example!

HOW TO FIX YOUR VCW if it suddenly crashes!

1. Uninstall your current flash player by downloading the uninstaller [here](#).
2. Download this which is an older version of the Adobe Flash Player (10.3.183.20). You might need to restart your computer.
3. Uninstall Chrome if you use it.
4. Download Mozilla Firefox or WaterFox
5. Once on Mozilla Firefox, go here (chatroulette.com).

6. Right click ---> Settings ---> Disable Hardware Acceleration
7. You're done! Your VCW should now be working

?

Good luck ewhoring guys!

Very nice and considerate thread. I guess it is a good idea to go into it with your hopes set fairly low. If you set your hopes really high then you'll just fall that much farther when it isn't working out right away.

Yea exactly , I made a mistake of getting my hopes to high. And I almost lost hope in this to ever work.

Just to say that I made my first 30\$ today. Found out that making pedos fall in love with you really is worth a while.

So I decided to buy l33t right away! Will keep and update as things change.

Congratulations man, your tactic might have worked the first time but I wouldn't talk to a pedo for that long if you want more than \$30 a day. Anyways still nice job! :)

I've been talking to him for 2 days. Counting this as a second day. But gonna be straight honest I'm more proud of my self that I made it despite wanting to give up on multiply occasions . Plus I'm working only on him now, and will try to milk out more cash, plus I got a lot of his info right now which will come in handy later.

I started to eWhore just to buy my self l33t, which I did. Now my next goal is to earn 400\$ so I can go on my summer vacation and enjoy it ?

I got loads of pictures of one of my previous girlfriends. (No Video though) This is when she was 15.

You think i can sell nasty pictures online? :o To pedos that is.

Is there anybody that know how to E-whore without VCW? Because I can't find how to set one up... So I have to E-whore without it.

Ive been trying for about 20h now , so far made nothing.

All I want actually is to make 11\$, All I want is 11\$ for something..

So yeah any suggestion on how to E-whore with no VCW?

Really nice thread, u should update as it goes, some tips you learn and all maybe not give away it all in case you want to make an ebook for sale..

I'm thinking about getting into e-whoring and got a good way to start from someone that will be tried soon enough i got a pack or two to use ;)

Sorry bro but no one REALLY wants child pornography and I don't recommend that you use it. Rather find a 18 year-old girl who looks likes shes 15. Otherwise you might get in real trouble.

You can always sell to pedos but you need to convince them that you're real.

(May 18, 2013 02:10 PM)EbicNinja Wrote: [\[CITE\]](#) Really nice thread, u should update as it goes, some tips you learn and all maybe not give away it all in case you want to make an ebook for sale.. I will once I make over 100\$. I will update it a bit. Due I'm still a noob at it.

But what I learn is that eWhoring comes up to 2 things,

1. Luck
2. You're skill in deceiving people or convincing them that you're really

Why luck ? Because 70% of people I ran into didn't have paypal or did but had no cash on it or just lied about it.

If they do have paypal with cash , then it's all about you.

Your presentation of the person your pretending to be. When it comes to pedos usually you really need to spend some time talking to them, telling them about your problems and such. It makes you feel more real to them.

But I will never vouch that my method will get you 100\$ per day. Due I would be lying. At the end it all comes up to you.

Do me a huge favor , and open search and put VCW . Im am honestly getting tired of explaining. There's everything on the forums, that is eWhoring section. Don't be lazy.

Either way here's the fix for VCW.

- 1) If you're using Chrome, uninstall it.
- 2) Uninstall Flash player completely.
- 3) Install firefox
- 4) Re-update all flash versions installed on your PC through firefox.
- 5) Open Chatroulette on firefox.
- 6) Right click on your cam window at Chatroulette.
- 7) Click on 'settings'
- 8) Uncheck 'enable hardware accelerator.
- 9) Close firefox and run VCW's

Probably the best real thread of ewhoring on hackforums, If i saw this, I would've felt less of a failure in the beginning. And he is so right. It took me 6 months of dedication + patience + books + tips. everythingg. to get where i am now. at least 50 + a day and still going. I still struggle and I'm sure others do as well. but just keep going. And be creative. You cant make it through if your not creative. Great thread. HUGE Vouch

You might not. YOU just might get lucky and get 100\$ in 10 min , or not get anything in days. But don't give up ! Worth trying , tho you still waste time on your PC but at least you will earn some cash..if not right now then eventually . ?

I would read it, most definitely. also don't forget to give tips about prices and locations and all of that(please give prices in both GBP and Dollar) and maybe A/S/L stuffs and more really if u sell cheap <5\$ u would earn some cash as most ppl might just buy it cuz it is cheap ;)

Not a problem bro , that's why I wrote it. I was just sick of the topics "MAKE 300\$ hour EWHORING" etc. Had to put a "stop" to it. People need to open their eyes and realise its easy to say you make 100\$ a hour if you have a good website ,ewhorepack etc.. But he doesn't tell you how hard it was at the start.

Thanks for reading !

I've known this guy for about 30min's in text, everything he speaks is truth. There is no guarantee \$\$\$ to be made, people have there private methods, but still play the game of luck. Actually I did make \$ before I wrote this thread. And it took me 1 month to make that 1k.

I recived my ewhore money in groups of \$5 - \$20, expect my friend just gave me \$200 a few days ago for working with him and another \$250 today to keep it for him.

I uninstalled Chrome, FP11(which later on I was forced to install again) But managed to solve the 'first problem': The fact that the FP10.3 crashed after I loaded the .SWF, now I managed to get it out of the way but now my screen within my FP10 remains grey even after loading the FLV file.

Can someone give some instructions on how to solve this?

I've been giving these as well, what I do to make the card has funds to begin with you can go to

<https://mygift.giftcardmall.com/> (visa G.C only)

Once you've confirmed it has funds you'll need the digits, exp. date, back 3 digits & you can use it on Amazon or any other site like that

(May 11, 2013 01:18 PM)????????? ??? ? Wrote: [\[CITE\]](#) ??My story??

First you will be able to see my first post on Ewhoring when I was just starting and didn't have any luck nor skill. And then a new update.

I'm not a pro , rather a beginner.

So don't expect me bragging about 1000\$ I made in a week or such.

I think this needs to be said, due there are a lot of tips, tutorials, do's and dont's , but none will really tell you what's it like in the beginning or which problems you might encounter .

Basically if you're getting interested or just starting to eWhoring don't expect money to fly right in your face. When I first started I thought to my self "easy cash, ill probably make 150\$ in few days" but no , I didn't .

Still today (4 days of eWhoring) I didn't make 1\$ but I'm not gonna make a thread saying it doesn't work or that is sucks nor will I give up due it does work , but needs dedication .

True that some people get lucky on their first day or make 500\$ of one guy, but you can't really compare your self to those people. Because maybe these guys spend hours up on hours reading threads , watching live streams of people eWhoring and making up their own plan how they are gonna do it or maybe they just started straight away and got lucky who knows.

The point is that some people have what it gets , they have a way to convince pedos or perverts to believe their story and know how to be patient, which from my own experience I was lacking .

If you don't get what I'm saying , think it as playing Skyrim , you don't start with 100 speech you have to practice make mistakes and work your way up :)

If you're like me (which I hope you're not) you will spend most of the time learning on your mistakes , seeing what goes and what doesn't. Learning to have patience and how to convince people to believe your story. You might spend 4 hours like me today doing VCW's and not get a penny rather see large amounts of penises ? .

The biggest achievement you can get from failures is being able to see what you did wrong and not to make same mistakes again. If you fail at seeing your own mistakes then its gonna take you much longer to figure it out.

You can always buy eBooks about eWhoring or read a free one, but it wont matter if you paid 50\$ or you get yourself one for free because none will actual tell you "Hey now you need to write this , do that, now smile , now try selling your pictures ..etc" . I'm not making a statement that you shouldn't buy or read eBooks (I bought one today from Bohemia and it gave me information I was lacking and some tips) but don't expect that an eBook will make you pro or tell you how to convince someone. If we were in Skyrim it probably would but we ain't in a game hehe ;)

To sum this all up if you're lazy to read, number one tip from me to you is :

1. Don't give up , you will fail but you will learn from it
2. Don't be afraid to make a mistake, or to try something new
3. Don't feel that you're the only one failing , because I'm right next you .

I decided to write this because none actually gave me any heads up on what to REALLY expect , and if I had seen a thread like this my expectation's would probably be much lower and would feel much less like a failure that I feel right now.

??Hey guys??

It had been a month now that I had started eWhoring and as you can see from my thread that I made just 1 week in it had been rough. But after one of my friends on HF helped me out everything changed pretty rapidly.

I was making 100\$ per day for 5 days in row then it balanced out and I was getting 30-10\$ per day depending how much I dedicated time to it.

I thought of making an eBook and selling it, but what's the point? I would never be able to guarantee that you will make 100\$ or even 10\$ a day.

If I did I would be lying and scamming you.

How I made 100\$ per day you probably wonder? Selling pictures, simple as that.

No, I didn't go on live chats and spam "selling pictures" or something like that, it basically comes up to site you're using, you have to keep in mind that none eBook will ever reveal the actual site they made most of the money on nor will make you rich, I'm pretty sure a lot of eBook sellers are gonna hate me for saying this but it's true. Sadly neither can I give you the site I'm using due don't want it to get saturated, sorry.

Tips that I can give you now is that if you're sucking at VCW's and finding people on online chats try finding unsaturated sites. One example would be Tagged or such dating sites and then try chatting up your victims, or go straight to the problem (a problem you make up) but you really have to be sure that he won't back down. But again as I said before I can not and will not guarantee you any success it all falls on you / your knowledge of social engineering and a site you're using I cannot give you that you have to learn/find it on your own..

Well that's all that I have to say for now, I hope I didn't offend anyone :)

If you like the thread say thanks to keep it alive!

Good luck guys!

?? 3/10/2013 UPDATE ??

So I will show you now one issue I had with a possible buyer. He pretty much figured it out that I wasn't the "girls" paypal but mine. And he even had my name and last name due I'm using my personal business paypal. So here is the chat log:

--@--@--@--@--@--@--@--@--@--@--@--@--@--@--@--@

ME: this is my email of paypal **@gmail.com you can send your donations here :P

HIM: Got it. Doing it now.

You are not for real are you? Who is this (MY NAME) guy? I am not interested in funding your handler.

ME: It's my friend's pp. I don't have a CC. He decided to help me out. I really don't see why it would be a problem of him helping me out?

HIM: Too many twists and turns. Sorry. I go for simple and direct. You still are a good artist but I don't believe you are who or what you represent yourself to be? I can not help you.

ME: check the picture. I made it so that people could see that I'm not fake. And I'm sick of people call me fake. If you chickened out, say it so, don't find other reasons to cover up your fear.

(I made a picture where the girl is holding the paper and it says the date, site and her nickname)

HIM : I am not saying the young woman in the picture does not exist. I am wondering why you don't have your own PayPal account or a Gift Rocket account or something in your own name. The other women on here that I have helped have accounts with their name on them. What keeps you from doing that?

ME : Well if you really need to know is that I had huge problem, I thought I would never have to talk about it again but It looks like I will have to. 2 months ago I had my own paypal with my name , and was getting donations. And one guy , who seemed really friendly and everything donated me bunch of \$, basically as I used my own paypal to receive the payment he had my name , email etc... He was able to track me on facebook, and stalk me there , then found my number started calling me. It was going on for almost 3 weeks. Everyday calls , threats that he will publish those photos if I don't meet me , or send him more pictures. I thought I would never stop. I had to get a new phone, new email, facebook..etc. So I told my self I would never do that again ,and well as debts started to mass I didn't see any other choice but to do it again. (start selling photos) But now I was smart enough to use my friends paypal. His more like a middle man for me. I feel more safer in my own skin. Have some respect and compassion before you judge a person , because you don't know their stories and experiences they had.

HIM It really sucks that you had that experience with that psycho a-hole. I apologize for judging you. My bad.

ME : Thanks I usually don't like to talk about my problems but sometimes I guess you have to So like could you still donate and everything like we planned ?

HIM : Will help soon. Currently refunding PayPal

At first I felt like I'm gonna lose this potential buyer, but luckily I was able to make him believe and get 120\$ from him for 2 videos.

Everything is possible if you try hard enough.

THO keep in mind that this might not have worked if the guy wasn't so "nice" and "understanding" . But it's still a good example!

HOW TO FIX YOUR VCW if it suddenly crashes!

1. Uninstall your current flash player by downloading the uninstaller here.
2. Download this which is an older version of the Adobe Flash Player (10.3.183.20). You might need to restart your computer.
3. Uninstall Chrome if you use it.
4. Download Mozilla Firefox or WaterFox
5. Once on Mozilla Firefox, go here (chatroulette.com).
6. Right click ---> Settings ---> Disable Hardware Acceleration
7. You're done! Your VCW should now be working

?

Good luck ewhoring guys!

To be honest, I think it's one the best threads here. It motivates me to go further, though sometimes I really want to give up. Thank you very much. Your experience's really encouraged me!

Hey what platform(s) do you use for ewhoring? Instagram, Snapchat, Discord or what? I am very new to ewhoring and I am starting to just earn some money online.

Amyere - April 27, 2024, 5:55 pm

Out of curiosity, have you used any VCW software that works with Snapchat web? I know ManyCam works but unless you pay it's obviously watermarked. Xsplit, not sure about... but OBS definitely doesn't work.

VCW is virtual camera software, so something like ManyCam, OBS Virtual Studio, etc. Basically something software based that you can send genuine looking pics with.
