Thread: [\[FREE\] Youtube Likes - Likenation iMacros script](#)

wodoo94 - May 11, 2013, 1:38 pm

Guide:

1. Go to: <http://likenation.com/> (Referral link: <http://goo.gl/1tsXN>)
2. Create an account (free)
3. Login
4. Go to "Add Page/Site" and add your Youtube video that you want likes on. (You can also add your Youtube channel to get subscribers)
5. Go to "Youtube likes" under "Earn" and start liking different videos to earn points.
6. Those points will be used when someone else likes your video.

Download bot for this:

Now, the good thing about this is that you can bot this using iMacros for Firefox. You can download the bot script here: <http://www.mediafire.com/?uimzs18drr8r05g>

How to use bot(iMacros script):

MAKE SURE THAT THE LANGUAGE ON YOUTUBE IS SET TO ENGLISH (US)

1. Download iMacros addon for Firefox.
2. Place "Likenation-Youtubelike.iim" in Documents/iMacros/Macros
3. Login on likenation.com
4. Click on the iMacros icon in your browser.
5. Select "Likenation-Youtubelike.iim" and set loop to 9999, click on "Play(Loop)". Script will now like videos and you will earn points.

I would appreciate if you could b u m p the thread as it's not post + PM.

Method works fine, give it a try ;)

Aumox - May 13, 2013, 12:32 pm

Keeps saying it "Youtube says you aren't liked this video". Apart from the error in that sentence, it ain't working for me even though when I do check my youtube account, it says i have liked it.

Try with another Youtube account and tell me if it works.

Have tried and no real positive result yet. Then again these accounts use the new layout for youtube, not sure if that matters.

Did you set the language to English US on Youtube, also, this is for Firefox in case you are using chrome.

Yep, language is definitely on English US, using firefox.

The method works, it's just that likenation isn't capable of properly seeing/knowing when I have liked/subscribed a video.

Its not a huge issue, you can offer 1-2 points too then :D But it would be good if ppl would give more than that :(
