Thread: [\[Free\] Grunge metal Thread design \[Free\] - PSD included](#)

Sejskaler - May 12, 2013, 2:18 pm

Hello.

So, this is my very first thread design, because I was bored, but I didn't want to do something sleek, I wanted a cool look, I might do something a little more sleek soon, I have something on my mind :D

Okay, so, here is a preview:

Spoiler [\(Click to View\)](#)

And as promised, here is the PSD:

Please say thank you to keep the thread alive ^^

And have a nice day <3

Thanks alot, downloading now. Going to use it as a new thread design for my netflix giveaway! Would you happen to make signatures too? If so, let me know! Also what fonts were used to make this?

Thank you, I am glad you like it ^^

Please tell me when you use it so I can see it in action :3

The phrases are named "Lorem ipsum" it's a latin phrase generation used by many designers as filling text, to see how the setup would look like ;)

Yes, sure, the fonts used:

For the thread title:

Lobster 1.4

Main text: Chunkfive

And all of the other: Chunkfive

Also, sure, PM me, and I can try to make a sig ;)
