Here we are again to Deal Dispute!

So I wanted to buy an account for League of Legends. And I found this thread:

<https://hackforums.net/showthread.php?tid=3454961>

I bid for 20\$ and I supposedly win. So he gives me his Paypal email and I sent him the money and then he says he didn't receive them. Later he says are you sure you sent the money to that email... He changed one "w" in the email. We weren't born yesterday kiddo. We have all thought of that. You are not the super mega scammer. I will include Paypal transactions + PMs

Yes you do but it takes about a week and a half for it to get resolved, Paypal needs to look into it.

Mine is still pending from the 9th that i filed

Sorry to hear that mate. I am sick of the fact that HF members can't even trust other members any more. I wish you the best of luck with winning the dispute and thanks for taking the time to post here to warn everyone. Anyone who thinks ripping members off is 'hacking' is very deluded and should be elsewhere.
