Thread: [\[Free\]iMacros Likenation Subscribe Script!](#)

**SIM-1558425** - May 12, 2013, 7:49 pm

Edit 2: V2 Release! Much better than my last and almost always works!

Edit: Sometimes it doesn't subscribe, just let it run again and it should!

Hello, today I saw a post for a iMacros Likenation Like Script, that auto-likes videos for points. I thought about it and made this! It auto-subscribes to users earning you points! It's runtime is about 15-25 seconds.

Step 1:

Get iMacros for Firefox.

Step 2:

Go to [LikeNation](#) and sign up for an account.

Step 3:

Download the subscribe script: [Here](#)

Step 4:

Put the subscribe script in your Documents\iMacros\Macros.

Step 5:

Click on the iMacros Icon on your address bar.

Step 6:

Select LikeNation Subscribe

Step 7:

Change the max to 9999.

Step 8:

Let it run while you get points!

I tried this with imacros for chrome and it didn't work :S

Could you maybe make one for chrome too?
