Thread: [\[Free\] Script Dos \[PHP\]](#)

??z????? - May 14, 2013, 8:38 pm

hi everyone

I offer you a script to back with your own servers!
I use it myself so he and functional ?

His script for a friend, I had permission to change

I give you the links you need to do copy / paste and put it in your FTP server!

Click Script Dos
[Script Dos](#)

Le?git - May 14, 2013, 9:14 pm

Anyone want a screenshot of this before you download? Here you go(cut off blank right margin):

[img]http://www.fileden.com/files/2011/3/8/3092880/random%20booter.PNG[/img]

there is just no cms and css otherwise it works very well :)

I'm crazy about the style I prefer the power, lol

Zap~ - May 27, 2013, 12:01 pm

This is like the 99th time I have seen this code used. It is a little different, but it has the same amount of power.

Spring - May 27, 2013, 3:33 pm

It is not a script. It is a php shell....

Gtfo hackforums

U skid

chk3 - May 27, 2013, 4:27 pm

Thanks for this OP it's very helpful!

??z????? - May 27, 2013, 4:35 pm

yes its a shell in France but it can not be explained like his bizar ...
