Thread: [\[Free\] \[Instant Payout\]Earn \\$0.17 per ad session watched \[Instant Payout\]](#)

Larzsify - May 15, 2013, 1:57 am

Hi guys!

Today i found out about a new money making method, which im currently testing. Its all about watching and judging short commercials (1-2 mins) which will pay you about €0,10 (\$0,15) each. This system is invented by one of the richest guys in Denmark, with some help from other big companys.

The site is in danish but i'll guide you through it with images

Let's go on, just follow the guide below or feel free to ask any kind of question related to this.

1 Step

Go to www.eovendo.com and click the big "Start Her" button

Spoiler [\(Click to View\)](#)

2 Step

Reigster with your Facebook or your personal informations.

PUT YOUR PAYPAL EMAIL AS LOGIN EMAIL, IT'S IMPORTANT

Spoiler [\(Click to View\)](#)

3 Step

Now accept the rules, and hit the download button "Hent Eovendo-afspiller"

Spoiler [\(Click to View\)](#)

4 Step

When done downloading and installing, you can now log into your account.

Spoiler [\(Click to View\)](#)

5 Step

ATTENTION! To increase your money gain, you should use a gold code. You will earn 3% of the money I earn every month, both when I watch the commercials and when I reffer a new person to the system.

my goldcode is larssurffys

Every month I earns just about 35-40 Euros, which is 1-2 Euros sometimes higher which is just right into your pocket only by being active.

So go register using my gold code, because you got nothing to lose.. Only free moneys

Spoiler [\(Click to View\)](#)

6 Step

Here you will have to choose atleast 8 out of 10 catagories your interested in. (pick them all for more commercials and more money for you)

Spoiler [\(Click to View\)](#)

7 Step

Pick paypal, and monthly payout (OR weekly/instant payout if you prefer)
Spoiler ([Click to View](#))[spoiler]

8 Step

Now go to the windows menu and to Eovendo application and pick the one called "Min Konto"
[spoiler]

9 Step

When you get there, pick in the light grey top menu the last one called "Instillinger" and choose the UK flag under that menu, so the program is now in english

Spoiler ([Click to View](#))

10 Step

Here you go, and everyday you will be able to see about 2-4 commercials which gives you allmost 0,10 Euro each.

So this is my method using Eovendo, if you liked it leave a thank you :D

Here's some payment proof (Instant payout)

Thanks mate for tutorial, i'll sign up under your reff. In this site you'll have to access to member area to see ads, but you'll leave your pc on all the day? like vagex? if so i think is better to rent a vps and run the bot there.

Thanks for sharing this method with us,
I watched only 1 advert and it's saying all gone,
How often do they update it?

Each day you will get 3-4 ad sessions, each ad session contains 2-4 ads

Just keep on going, when you start you'll get less ads, but when you continue you'll get a lot more :p

I will keep going,
If I am getting 2 euro from you + money from me viewing ads it will be a small amount but still, easy work :)
Maybe I will buy key or little thing for DOTA 2 with this money :D

Berimox - May 15, 2013, 5:38 am

Lets say you have done this for 2 weeks, you get about 9 ads to watch?

I got 2 ads the first time, and today I got 3.

In a week you will get about 20 ads. That's 5 dkk

Do you have to write a report on every video, or can you just like/dislike the video stating it was a "Clear Message" etc?

You don't have to write nothing just continue to next ad, nor do you have to like/dislike

Snaow - May 20, 2013, 1:15 pm

Woow. Copy and Pasted method much. I've seen this on another forum with at least a month before this was posted. BTW at least tell them to use a VPN thats near the area this method is hosted. The website bans those who are not residence of _

NoobCell - June 1, 2013, 2:43 pm

It does work, but \$0.17 per ad session is a little bit of a lie, I made £0.05 for an add session, which is about \$0.09

ahmadrules - June 1, 2013, 3:13 pm

So, it's only for people from Denmark...

It was a good method though, but unfortunately not for people like me, who are not from Denmark..
