Thread: [5 MEMBER UPGRADES!!!!\[Xbox Legacy\]](#)

**Sh1Ft** - May 15, 2013, 3:03 pm

Hello HackForums, I have noticed that recently a decent amount of members from Hack Forums have made accounts on a new but good site "Xbox Legacy" and I decided why not upgrade some members on there, so here is my thread to do so.

You can view the thread about "Xbox Legacy" here:  
<https://hackforums.net/showthread.php?tid=3461495>

Xboxlegacy.com

Requirements:

- At least 25 Posts on XboxLegacy.
- Positive Reputation here on HF.
- A link to your Xbox Legacy profile.
- Only 5 members will be upgraded.

I will analyze your profile on Xbox Legacy to decide if you are adequate enough to be upgrading.

Thanks!

Great service Sh1Ft! XboxLegacy.com is an awesome site and I would love to be upgraded (even though I own a group there).

Good luck to everyone that applies!

Vouch for Sh1ft! I got on today and I was upgraded! Thank you so much! I am doing something right now to help show my appreciation. I will show you and the forum what I have in mind tomorrow or later tonight. Thanks again!
