Thread: [I Will Purchase Your L33T or Ub3r Upgrade In Exchange For BTC | L33T \\$20 | Ub3r \\$24](#)

SWS. - May 16, 2013, 7:28 am

I know that some people want to upgrade to get upgraded to L33T or Ub3r, but for some reason they can't. Whether it be they don't have a PayPal account, their PayPal account is Limited, etc.

Well I'm here to offer you an alternative way of getting your upgrade done, and that is through Bitcoin. You pay me in BTC then I purchase your upgrade with my verified PayPal account. I've already done this service for several members and I'll happily do it for anyone else that needs it done.

Prices

L33T: \$20

Ub3r: \$24

Isn't there like a 20% rate, Which makes Ub3r around \$4 / \$5 Cheaper?

Goodluck with sales though

Everyone who upgrades to Ub3r has to be L33t first...

And the price of L33t and Ub3r are different because Ub3r costs more to purchase than L33t does.
