I came across this video on YouTube, and I thought a couple of you guys would appreciate it.

It's one of the episodes from a TV series called the "Computer Chronicles" filmed back in 1993! I certainly got a couple good laughs out of this one.

LOOL! "Lot's of hardrive space maybe 200-250mbs."

That is pure gold right there.

Best quotes:

"Dont copy that floppy"

"On the \$1000 end, we are talking 2 mb Ram"

"At the \$5000 end...lots of RAM, lots of HD space, we are talking 200 mb"
