Great compilation, got my inspiration from my review here, and guess what?
My review is in here now <3

Very nice compilation, I have found enough to watch for some time

Osuka - May 31, 2013, 1:32 pm
Looks like this should of been done before so people wouldn't ask if a show or manga is good when they can look here and check themselves.

Also I'm sure no one really cared about doing this or was simply lazy not to type and go through all this because someone would have done it by now. :)

Chubaca - May 31, 2013, 4:44 pm
Great thread but I feel this should be re organized a little better.

Contact me if you would like me to help you organize this.

What do you think would be better? All I could really think of is to categorize them by genre, but that would take a while :/

[size=small]I wanted to try to get every review from this section into a single place, so here we go
^ ^

(Note: These all use the names given from [url=http://myanimelist.net]MAL[/url], regardless of what the review called it)

I will try to add every review as they are made, so if anyone makes / sees a new one then feel free to PM me or post it in this thread. Hope this helps someone :)

You can also use this thread to request reviews from other members.

If you see ANY mistakes whatsoever, please notify me. Even if it's a very small one.[size]
I thought about including the review's author, but decided against it. If everyone was locked to their username, I would do it, but I cant really keep up with everyone changing names :/

You have a point there. What about an Index that showed all the Authors to give credit to them in a way and if you change their name you can just change it easily.

Other than that what did you think of the blue style and putting a Notes part at the bottom?

Looks good. I updated the thread to use it. (Gave you credit at the bottom c:)

Really nice list! This will be a great help for people looking for recommendations. :)
Should always stay on first page. :)

Just what I was thinking. Listing everyone would just be unnecessary hassle.

Anyway, beautiful thread. Hopefully we'll see this updated for time to come. Spoiler ([Click to View](#))If anyone in this section keeps making reviews that is. They're not the most popular of threads it seems.

Hentai? - May 31, 2013, 9:13 pm

I see one of my reviews in there. ^_^

Which reminds me that I haven't done a review in forever. :/

HellsCrypt - June 5, 2013, 4:19 pm

I miss the good old days when we had stickies here in AA. As this Deserves a sticky as its almost like a recommendation thread but with way more anime.

You missed this one I think. Check my threads, I might have posted some that aren't on the list. You should probably also mention that I'm the god of AA reviews

Arruke - June 21, 2013, 10:33 pm

Seeing this list may actually provoke me to do a review or two of my favorite anime, seeing as how

they aren't already reviewed.

I have a few that I've done if you wanted to add more.

Well seeing as how the Blood+ one isn't actually a review, I would most likely do one for Blood+, Paranoia Agent, Soul Eater, Shiki, Shuffle, Eureka 7 or some others I can't think of right now.

If it's anything though, it will most likely be Paranoia Agent, the thread will be huge as it's my favorite anime of all time :P

Thanks for adding them! I hope to get back into reviewing, but at this point in time it is quite difficult. I lack photoshop or the skills to make the banners and tags, and my internet is dreadfully slow, extremely limiting to slow load times on CR and long DL times.

What you can do is contribute to the existing one, I think everyone would be far happier with that outcome. The issue with your thread is you are using posts which don't really need to be done, linking to the original post is much better and you won't run out of pages.
