What pack are you using, is it too saturated?

Send me one of the pics through PM and i will tell you if ive seen it before.

I just sent it to you. I've been trying all day just to get literally \$20 or even a dollar.

Lol saturated pack = seen.

Also pictures from different angles look more less fake then real.

What does Quote:angles look more less fake then real. mean?
Do they look real or fake?

If its taken from a 'professional' angle they usually think it is fake.
Like you got it from a pornstar or something.

Solution: Flip the image and then send it. Very less chances of getting caught if someone uploads the pic on google images and try to find it.
