EDIT-Never mind I was helped already!

Pillows - May 26, 2013, 12:46 pm

Damn that plot twist. I really did not expect Mana (new sister) and Kotori (pink hair sister)to be those kind of people.

Anal Voyage. - May 26, 2013, 1:29 pm

Well...

There are these threads:

Anywho:

Can anyone link me to the latest episode where the subs don't suck?

Animefreak and Animeseason use the same subs and it sucks.

They're either missing, or they're Yoda subs.

I noticed that too. The subs were either missing in some seconds or the grammar is just entirely horrible. The same goes for the font as well.

Mana is not a spirit, but maybe Kotori is, maybe.

They did say mana was pumped with magic or something similar to it but yea im sure kotori is, thats why he was able to heal when he got shot because he had his step sisters power in side of him. That is also why she said at the end of the episode she had to take it back.

I wanted to say people because it would be vague and not spoil it but yes you are right in that concern.

CheesuSan - May 26, 2013, 5:22 pm

The anime's actually really interesting, esp. with the addition of Kurumi, I'd recommend it, especially for the plot >.<

Tsukaima - May 26, 2013, 6:06 pm

Bad subs are bad.

Can anybody give me a link to episode 9 with good subs? The one I was watching the subs cut out a lot so it really annoyed me and made me want to learn Japanese more :p

Anal Voyage. - May 26, 2013, 6:25 pm

I'm boycotting this anime until somebody releases half-decent subs. ;(

The subs we had yes, hopefully it will get better next episode they were fine the last 8 episodes one bad egg doesn't mean you punish the whole batch. BTW almost every anime out there has one or two episodes of errors so it's normal hopefully they realize this and fix it. I enjoyed the new font but I just wish they would go over the episode after they sub its easy errors that could of been fixed by anyone that new how to use windows movie maker.

Naw I mean, I'm not gonna watch any episodes after this one 'cause I haven't finished this one. I can't stand watching it with such crappy subs. xD

FUCK YES episode 9 was just so fucking amazing. It will put a twist to the whole plot and honestly,

seeing that made my day.

Pillows - May 27, 2013, 12:08 pm

Actually now that I think about it we technically did know that Kotori is a spirit by looking at the OP.

It gave hints but episode 9 definitely cleared up any confusion about it.

?Cross - June 2, 2013, 11:40 am

Well looks like were gonna have a bit of brotherly sister love if you get what im saying.

pym0l - June 2, 2013, 11:51 am

It's getting really interesting and I can't wait for the next episode!

Tohka Yatogami - June 2, 2013, 8:33 pm

If you seen episode 10 today, shit got real. I mean..real beyond belief. Glad i didn't drop this show, it's really good :)

Tohka Yatogami - June 9, 2013, 7:40 pm

Episode 11 was nice in its own way but the ending preview for episode 12 makes it all worth it. Glad I stuck with this anime so far. I like the drama in this. Some people say they don't like it because it's like soem dating simulation game. To me, who the fuck cares? Tons of people loved Highschool of the Dead...you know how many zombie movies there are? Anyways, back on topic, to everyone who hasn't seen episode 11 yet, go to

<http://www.animefreak.tv/watch/date-live-episode-11-online#English> to watch it :) The subs aren't bad like they were on previous episodes.

Galaxias - June 9, 2013, 8:58 pm

I just watched it recently and overall I must say the anime is really good.

Tsukaima - June 11, 2013, 8:53 pm

Ignoring some of the earlier posts cuz I haven't watched 11 yet, but does anybody know how long this series will go for? Like half-season or full-season?

I think it will just go for 13 episodes. I don't see it going longer than that.

Meh http://myanimelist.net/anime/15583/Date_A_Live

They say 12.
