Very detailed out; I can confirm you will INDEED make money off of this.

The first main method is indeed auto-piloted, will take a minute to set up though.

All worth it though as it's free cash.

What I REALLY liked though was one of the bonus methods that was included.

Something similar to what I use to do but what he does is smarter. Going to start doing as well.

Thanks, Enigma.

Rating : 9.75/10 - Straight out amazing.

The method is extremely detailed, after you read it, you won't be asking for help on the setup/how to do things. The setup takes little time(about 7 minutes) to complete. The grammar and spelling on this file is EXCELLENT. It contains REALLY good and HIGH QUALITY content for sure. The text is easy as hell to read and the instructions are easy as hell to follow(It's hard not to follow) I am positive that anybody can earn from this method and they won't earn small, they WILL earn BIG. These methods will generate you free money, and I'm sure that after you get this and set this up, you'll start getting at least \$100/day and after a week of getting used to the method, you'll start earning maybe \$500/day. I HIGHLY recommend buying this method because you will earn HUGE amounts of money and will have the money you spent on the method paid back in AT LEAST an hour after buying.

The product was insanely easy to follow, auto-pilot indeed and I assure you won't have to think twice about buying this.

You can make lots off of this, I don't usually do auto-pilot since I like to do it manually.

You require very little tools to do this auto-pilot technique which is great.

You won't even need to talk.

Long story short.
Buy it.
It's the best.
Thanks alot, Enigma.

v???? - June 1, 2013, 11:06 am

As said, this works world wide - autopilot. Takes 10 minutes setup, approval time for the network we use varies from 1 hour - 7 days waiting. :)

#Bacardi - June 2, 2013, 2:51 am

Looking veeery nice dude!;-)

- Amy.

GTH - June 2, 2013, 10:57 am

Does this work natively on a *nix OS? Or does it need to be run through WINE or on a Virtual Machine/Virtual Box/etc?

v???? - June 2, 2013, 11:28 am

Its Mac and Windows Native Only.

All other OS's will require a VM.

I dont understand what AutoPilot means ? (I'm from france so i don't get it..)

And after buying this ewhore method , i'll be able to make money in how many days ? I'll have to pay something more ?

v???? - June 3, 2013, 4:05 am

If you don't understand English then I'm not sure this guide is right for you. As its written in English and I can only provide support in English I'm afraid.

Regards

kangoo13 - June 3, 2013, 4:10 am

Well I understand english but it's just the word "Autopilot" that I don't understand ..

And you didn't answer me ^^ I have to pay something more after or not? Is it hard to make some money?

xristos231 - June 3, 2013, 4:37 am

hmm what if i will not earn money by this?

v???? - June 3, 2013, 7:56 am

Autopilot basically means automated. After you set it up, you will get money with put doing any hard work your self, and no further investment required.

Shopping Trolley - June 3, 2013, 7:17 pm

i won the sig comp and i just quickly read through this ebook and i have to say ive never seen this method, i have bought all of the other \$25 ewhoring books and stuff and all of the others are not good and are saturated, this method looks promising, i will be setting it up tomorrow and hopefully i finally start making some money. Will show payment proof when i get some and also, do they pay via paypal?

Jrake - June 3, 2013, 8:44 pm

So it's 1,000 per day, yet you sell it for \$35? And it's automatic? Doesn't make sense to me.

LifelsBeautiful - June 4, 2013, 7:21 pm

Like others have been asking on the past two pages: do they pay via PayPal, or will I have to set up an account on some obscure payment website I've never heard of?

v???? - June 4, 2013, 7:35 pm

They pay via Wire, cheque, Paxum or payoneer. You can attach paxum and payoneer to your paypal :)
Regards

LifelsBeautiful - June 4, 2013, 8:42 pm

Thank you. Between paxum and payoneer, which would you say is more commonly used? That's the one I'll be making an account for.

Also, between this ebook and your other ebook that could be used to make up to \$240 per hour, which of these ebooks' methods take less effort?

v???? - June 5, 2013, 7:36 am

Both work perfectly - Pick one. Doesnt make a difference.
Both methods are autopilot, So thats also up to you :)

kangoo13 - June 5, 2013, 11:59 am

v???? - June 5, 2013, 12:27 pm

Flower. Seeming payments are twice a month, people are waiting for the payment period or awaiting theirs payments already (can take up to 7 days)

ShinAsuka - June 5, 2013, 8:09 pm

Just asking, I've been wearing this siggy for a while and posting everyday, is my name in the draw baskets?

LifelsBeautiful - June 5, 2013, 9:48 pm

Do you need a w9 form for both of these methods, or only one of them?

kangoo13 - June 6, 2013, 2:53 am

Doesn't work very well for me ... Need support but Enigma isn't contacting me at all :/

LifelsBeautiful - June 6, 2013, 3:18 am

I just received a private message from someone, (NOT anyone on this page, and not going to say who), saying:

"Don't buy it, its crap. I've been running it for over 48 hours and made \$8, thats not deducting electricity etc. Seller will not respond or support this product once you buy it."

Why are they saying that? Or rather, why would they lie about that?

Edit: Whoa, holy shit, what's with the giant flood of deleted messages? Maybe the guy who said "My, and others negative posts in sales thread was deleted after <1 minute." was telling the truth.

kangoo13 - June 6, 2013, 3:24 am

Well I bought it yesterday and can't make money because i'm always banned with this method...

I think it's not workable with autopilot..

thanks

Sword Art Online - August 14, 2013, 9:36 am

and like 10+ pages and not a single payment proof. I'm sorry this sounds too good to be true.

Stephen Hawking - September 3, 2013, 7:15 am

Say I buy this eBook and I do not earn my money back, where do you go from there? Because I've bought about 3 ebooks in the past two weeks and I have not made any money at all. £35 is an extortionate amount of money to spend on a virtual item, especially if its not going to get me anywhere.

Although convincing, your cover page does not tell me a lot about the product, although I respect that you can't say much as it might give it away, it just looks like another thread that promises the world and potentially delivers nothing. I'm not saying it won't, I've just been let down a lot and I do not want to waste any more money and the amount you're asking for is a lot.

Is there anyway that if I buy this and try this out and I can provide proof that it doesn't make me money, can I get a refund? This will strongly influence my decision on purchasing because that really is a lot of money.

Is this about Chaturbate? getting people to sign up under your aff link? Using manycam / download fake videos -- So if not working anymore. You can't see any viewers on Chaturbate because you are not a 'verified model' (Therefore, you can't accept any tokens) So, if you don't have any tokens, your broadcast is on the lowest rank and won't work.

Just assuming.
