Well I just finished my first Smudge Picture. What do you guys think, and what can I do to make my skills better?

It seems pretty okay. I like it, and I don't remember much on PS, because I don't use it anymore, but from what I did know, you should try and get it to blend it some more with the blue. Other then that I enjoy it. ?

That looks very sexy. Try to make the smudges look a little more 3D though near where they fade out.

The smudging around the arm and the object are okay. Rest needs touching up on.

It looks pretty good for your first time, I'd touch it up a bit though.

Alright, I did some touch up. How is it now?

It doesn't look much different but you can tell you touched it up a bit around the arms. I like it! ?

The lower left leg needs a little more work, however the right leg was done better.
