Alright,

So I've been playing this game 'Year Walk' for a little while.
Kind of got inspired by the style of the game. So, I drew this.
Not really sure what to think of it, so give me some feedback!

Drew this in Adobe Photoshop CS6, using a Wacom Bamboo tablet.

Don't really like the black horns, but overall I think it looks great.

Black horns look really random, like you just threw them on there.

Everything else looks fantastic. Great work.

Looks nice, the black horns makes it look ugly and it looks kind of like pixel art.. which messes it up, not sure if it's noise or not..

Looks great man, but I personally dislike the horns; I think it ruins it.

I like the way the horns are kind of like looking into space. You used too much noise on the piece though, but it looks awesome.

really good, but the horns weird me out...
