Great tutorial for beginners. Very simple and easy to follow and a lot of people prefer picture tutorials over video. Thanks for sharing, man.

Belgio - May 31, 2013, 6:01 pm

Simple & clean tutorial, though the artwork is a bit on the 'easy' level. Other than that loving the layout of the tutorial.

.DATLOL - May 31, 2013, 7:09 pm

This kind of GFX stuff is basic and grade 1 level to me, but you kept it simple and straight to the point. Beginners should refer to this tutorial if learning how to make a header, it's a good start.

Zen - May 31, 2013, 7:24 pm

SoldierX - May 31, 2013, 8:54 pm

Sor was the first time I made a tutorial so would improve my mistakes in the next one for sure, anyways thanks for suggestion.

- 1) "That puush could not be found."
- 2) Your title could be more descriptive, cause ATM it doesn't tell us anything.
- 3) "Learning Made Incomplex" doesn't sound good, and incomplex isn't considered a word by most accounts.

DIAMNXDS - July 19, 2013, 5:40 pm

Thanks for the the tutorial it was great and I'm sure it would help a lot of people.
