Thread: [Splash screen \[Bad\]](#)

Taru - May 29, 2013, 9:07 pm

Edit 1: (Changed from a subtle pattern to noise)

Edit 2: (Changed font and small edits)

Making my first splash screen.

What should I change/add?

Doesn't look good at all at the moment.

Hexology - May 29, 2013, 9:12 pm

Looks nice, Do something different with the font, mainly the one on the bottom, also the transition from blue to white-ish blue could use some work. But overall not bad!

Thanks I'll try to do something about that.

Could someone suggest a good font for the lower part?

I would really appreciate it.

Nice and clean design, I like the first one.
