Thread: [Firefox ProBux Guide \[Earn 35\\$ a Day in a month\]\[All Members\]](#)

April Fools. - May 30, 2013, 2:37 pm

USE AT YOUR OWN RISK!

Spoiler ([Click to View](#)) ^ Actual Earnings

For those of you unfamiliar with this method, it's pretty good. You do not even need to click the ads, this is all auto piloted so you don't have to do anything except login every 24 hours!

Sign-up here - <http://www.probux.com/>

(I really appreciate it if you do use my referral link, thank you).

Method :

Install firefox and then download the greasemonkey addon :

<https://addons.mozilla.org/en-US/firefox/addon/greasemonkey/?src=search>

Restart Firefox then install the following script <http://userscripts.org/scripts/show/160878>

Then login to your pro bux account, click view ads and the bot will do everything for you. It will even have a little box in the bottom right corner to show progress. You may have to wait 10-20 seconds once you click "view ads" for it to get going but after that it does it very fast.

If you need any help setting this up then feel free to drop me a PM and I will answer all your questions!

Once again, I would appreciate it if you could use my referral link.

<http://www.probux.com/?r=maxz84>

To make more money with this, buy referrals + use the money you get from the bot clicking the ads to buy referrals too.

If you want to make even more money easily with this then complete simple daily tasks that literally take 20 seconds to do.

Screenshot - <http://prntscr.com/xtbac>

Then there is one last thing you're able to do to make money which is really fun, it is the grid, you get 20 guesses per day and the guesses carry over each day.

Screenshot - <http://prntscr.com/xtbgk>

Enjoy.

No, this one is not going to get you banned since its working on the site, it opens a popup and opens the ads without you being annoyed or having to click on them yourself.

ive been doing probux for about 2 months now using the bot and im not banned, but unlike the OP thread topic of \$35 a day within a month thats not accurate. you have to invest at least \$70 for golden and \$200 for 1k referrals (\$270 investment) which will take you over 2 months to purchase all of that in itself, of your own money to get to that.

i have standard and 186 refs with 7 direct and make about \$2 a day

Thats not including the direct referrals and using pro grid.

This also does not include the quality of your rented referrals, thats why you recycle the ones that don't click.

RonanD - May 30, 2013, 2:46 pm

Userscript link won't work for me. Tooons of tutorials on this, actually doing it right now, nearly at \$0.6 where I can rent my first referrals, but I'ma wait til around \$0.7 in case I need to recycle..

Cheers for sharing, even if it is everywhere!

the average referral clicks will be 2 if your lucky, ive recycled over 100 referrals so far. you're extremely lucky if you get alot of refs that click 3+

Ballistas - May 31, 2013, 2:10 pm

Good method, although i do not suggest using grid...it is just a waste of times, you are basically watching ads without being paid (or is it 100% that you get some money with grid in some time?)

Oh, found your grip bot:) ?

Well. If you are banned, you wouldn't know unless you are not able to post in the forum.

Well, that makes sense. + I haven't seen proof of anyone being banned by using this script so far, so I'm not sure why people are posting negatively about it accusing it will get users banned. ?

Well, I just started with probux today and made .0550 after watching all my ads. I did it manually since I'm really hesitant about using the script.

I feel like the money is really small and its going to take 11 days to make \$.60 but hopefully I get some active referrals and the snowball will begin.

Also, neobux isn't working for me. when I click login or register the page never finishes loading. I've tried it on both google chrome and opera.

Try to sign up again mate, its probably the site loading. Also its a bit slow at first but in 6 days or so, you can get 60 cents for your rentals.

zillafree - June 15, 2013, 9:12 am

How long do you recommend I buy the rentals for? I know the longer you keep them that there is a larger discount but I don't want to rent someone for a long time who won't click ads.

After 14 days, if they dont click ads, they will be recycled for free, otherwise its 7 cents.

Who, besides OP, has successfully cashed out using this method? I have been doing some research and they don't ban you when you are just clicking ads, they get you when you try to cash out.

I know it works...

I haven't used this method for long enough but I still use it and I get paid :P

ALSO!!!

Edit to this method

<http://vortexvps.com/> buy a windows vps and setup firefox and do the method on it... All you need to do is wait ? works out because you get enough for the credit from refs and you can be lazy!! :D

Thanks for sharing, This is very helpful :)

Onullpointer - June 20, 2013, 1:18 pm

Nice method ;P, thanks!

But I'm not sure how long it takes for an upgrade, cause I'm earning \$0.0580 for 22 clicks :3.

yeah thats the start, then you will be making 20\$ a day!

nostalgia-xo - June 20, 2013, 11:48 pm

I'm late but this definitely works. Invest some time and follow some methods and their procedures and after a few weeks or so you definitely get there. It's really a cycle you follow. I place my bet here if you want to earn money. You just need to have patience and determination.

Love this - I fully vouch for it.

No mess, no fuss and you can read the source of the script if you're in any doubt.

Very clever!

Enjoy mate! beardsnest, hope you can make a lot of money from this.

D?sturbed - June 28, 2013, 12:38 pm

Are the scripts detected? Can I get banned for it? I've been told by some people that it's bannable on cashout.

Allow popups for the bot to work. YOU Get money from the clicks from your rented referrals.

@ April Fools.

I heard you can get banned for using an auto-clicker (bot/scripts). As it is considered to be cheating. Is that true?

Enable the popups, most of the time, your popups are blocked so make sure thats unchecked.

I would advise people never to use an autoclicker. They are able to track the repetitive "computer like" movements.

Gallant - August 8, 2013, 11:01 pm

I'd love to try out that method please. :D

Sajon - August 15, 2013, 4:54 pm

5.ANTI-CHEAT POLICY

5.1. Each attempt, in any way, to hack into the system will be logged.

5.2. Sometimes we will warn you, sometimes we will not. In either way, when you request payout, our monitoring system will analyze your actions and take its own actions in return. Normally, attempts to hack the system will result in account termination.

5.3. You can't use anything that automates tasks or clicks advertisements for you, including, but not limited to any software, plugin, script or autoclicker.

5.4. The end result to any attempts of piracy is account suspension.

this is why you use a script.. you don't hack it or anything, it simple just does what you would do, normally.

Hi,

I have a problem with Probux. My referrals have a good Avg but in "Next payment" there is written 0 or 1 day (see : <http://postimg.org/image/uk3sfunmf/>)... WHY ?

Income. - October 16, 2013, 11:16 pm

Well this method got me banned after 6 months with 70 about 100 RR's.

I was just about to take my money out and then the page started to load forever and the day after my account was suspended.

I recommend to go legit and just click 4 ads a day. (as minimum)

SouqlIRS - October 16, 2013, 11:41 pm

The script isnt working for me sadly,,, sigh

Holydays - February 17, 2014, 11:31 am

To make the script working you have to use Mozilla Firefox

Get that and download greacemonkey restart the browser

Then download the script and it should work. Go to probux and click on the "View Ad" tab

marcin0409 - March 5, 2014, 12:05 pm
