Not to bash your sales but why would you sell an mothod that can make you +300\$ / week for only \$30?

Because I know many people don't have much money to pay their bills and such things like that, so I'm making it cheaper.

This sounds fishy guys, I would deal with caution.

Only because you don't believe in me you are sales trashing my thread and telling people to deal with caution?

Well, that seems really LQ from you.

Seems Fishy. No "real" information about the eBook.

Are you 100% this is private?

If I buy this, and don't make \$300 a week, can I get a refund?

Also, by doing a bit of search I found [This](#)

Well, take a look at that stupid scam report skype convo.

I didn't scammed him, you can see by paypal "receipt" not my email plus not my name and all.

And yes, I can guarantee you can get over 300+/Week If you buy this, altought no refunds will be given.

I find it ironic how you have "Valderine Earnings: \$373 USD." in your signature.

Shouldn't that number be a bit higher? If you're a "money making guru"

That was about Valderine, nothing about this, learn to read first before posting something stupid like you did.

"I will be giving only 10 copies of this eBook for only \$30."

"pOiSoNeR's Private Exploit 300-500+/Week Method"

Seems legit.

What's the problem about that sir?

I can guarantee that you'll be doing \$300-500+/Week with this method, also is unsaturated.

Amazing how you buy a money making e-book.

Then you're now making 300-500USD and selling an e-book

Either C+Ped or the same ebook.

So much sales trashers, oh my gosh!

Now I bought a money making eBook and no 'reselling' it?

I did make it by my own hands, not Copy/Pasted.

You need either to give out review copy for a trusted member or be more specific about the method , because frankly it sounds fishy

1 and a half months ago you buy e-book, Which you scammed

Then you're selling an ebook with no proof at all

Seems legit.
