Thread: [I just started watching Tasogare Otome X Amnesia, and it's pretty good](#)

So I just started watching Tasogare Otome X Amnesia (Dusk Maiden of Amnesia), and it's pretty good. I haven't watched an anime in a couple months (last one I watched was Genshiken), and the genres really line up with what I like, and the whole ghost idea is interesting. I was close to the assumption that it would be similar to Another, but I don't like assuming things. Strangely enough, this seems like it's turning out to what I wanted Another to be all along. but I'll know that for sure once I finish it.

Just kind of wanted to say that, and ask if anyone here has watched this anime and what are your thoughts on it.

I watched it back when it first Aired on TV and I personally enjoyed it. Its a good semi romance / comedy and while it does have a little bit of a boring part towards the end it picks back up and gets better so its well worth the watch.

Its one of my favorite series of all time. I liked it so much that I youtube'd for its ending song and learnt to play it on the piano. (Nothing great, a Synthesia version is available, I play the same exactly, dont have any piano training etc xd)

I watched this show after somehow coming across it while viewing /r/anime on imgur I think...

I really enjoyed it, I'm glad you like it.

Edit: Wow, I'm glad you posted this. Otherwise I never would've noticed I forgot to add it onto my MAL list.
