Thread: [So I just smashed my laptop.. Need some ways to make some cash?](#)

Polymatical - June 2, 2013, 8:45 pm

This is so shitty.

I just accidentally knocked my laptop off my kitchen table and shattered the screen on the floor.

I currently have \$4 to my name so I don't know how I should go about making some money for a new one. I have long-lasting subscriptions for a crypter and fud s/JDB but I don't know if i should earn the money via blackhat methods or not, and I don't really want to have to wait another 2 weeks for my paycheck to come in to get another one.

Any ideas? I'll help out the user very generously who sends me in the right direction.

Cheers!

Edit: It doesn't need to be anything special. A simple \$300 internet browsing laptop is all I need for school work, etc.

You should invest in a Chromebook if you can get the money. They're cheap and efficient.

Well the point of this thread is how to make the money for one, not which one i should get. Thanks for the advice though.

First off, Don't get a chromebook. They are absolutely annoying as fuck to deal with.

Second, adsense is probably your best option. Join a group and tell everyone you're new to adsense and such, they'll start clicking for you. :)

Hope I helped.

Mow some lawns.

Seems to keep the Mexicans goin', lol.

I've been banned on two or three adsense accounts in the past for that shit, so that's a no go :/

And @Mister.Owl LOL, I wish. I don't go outside. Besides, the big yellow thing in the sky burns me every time i walk out the front door because it hates me ;P

Hehe, in that case you've got two choices:

Go the immoral way, and make some blackhat money (I can give you some advice, but I'm out of this business)

Or, you can go legit. You either need to make an investment of money, or time. (If you choose time, it takes a couple months to make any money at all, lol)

As you only have \$4 to your name, there really is nothing you can do that will buy you a laptop.

If you want some small bit of Income check my method on my sig.

Also, If you want easiest but most hardest and time consuming would be to look for a small part time job!

Or Do you have a Console? Im sure you have some old games lying around which you dont play? Could sell them on craigslist or ebay or your friends.

All the best and good luck! :)

Why don't you just buy a new screen for the laptop?

abhayraje99 - June 3, 2013, 12:47 am

go to cpa & earn some money there you can easily get 100\$ daily if you work 10 hours daily

Slice of Life - June 3, 2013, 12:53 am

Code [b]1. What's your current infrastructure? (Your PC configuration, your internet speed and such.)[/b]

[b]2. How much can you invest in your startup projects?[/b]

[b]3. Do you have a popular site, blog, domain, facebook or twitter page/profile?[/b]

[b]4. What are your skills? Can you design or work with blogs? Or some totally random talent?

(Think fiverr)[/b]

[b]5. How much time do you spend online in a week?[/b]

Fill that form and post your response here: <https://hackforums.net/showthread.php?tid=3516102>

I can help you for sure, sorry for your laptop. ?
