The title says it all, just informing you guys...

I watched it and... I'm feeling very hollow right now guys...

zomgasd - June 3, 2013, 8:54 am

I saw the synopsis at MyAnimeList, it feels like I should watch it. Was it good?

iSmile - June 3, 2013, 9:06 am

Just saw it. WOW on the end! AA+ On the drawing!

Sutorimu - June 3, 2013, 10:41 am

All i liked was the animation (drawing) it was so HQ, shit. I didnt notice anything special with the story just another drama plot. Anyways i would give it 10/10 on the drawing, and if you have nothing to watch, i reccomend it for everyone.

Just took a screen shot.

The quality is awesome.

zomgasd - June 3, 2013, 11:26 am

Story was OK, I thought it would make me sob, but no. Animation was so HIGH QUALITY, I suggest you guys watch it at 720p and above!

Is it bad that I saw this thread's title and thought it was a hentai? ..

Anyways, the animation looks interesting so I guess I will check it out later ^_^

Went to download this and ended up downloading about 6 other series... I go to a fan sub website, see there completed list, and am like "OOh, that sound interesting." and I end up with a collection of anime I won't watch for forever. Already have like 20 shows lined up.

Back on topic, the art in this looks to be amazing, can't wait for the download to finish. I like a good romance so the story should be fairly enjoyable.
