Thread: [Question about purchasing ub3r/ ub3r](#)

King of Diamonds - June 4, 2013, 4:31 am

Is the company that handles all the payments still down? Because i remember seeing a post by omni about this and havent seen a post saying that it is back up. And where can i find a place where it shows me all the good things about ub3r, Like what i am able to do. I know its not under the upgrade forum, And since my warning level expires in 9 hours, i would like to know :P

I don't think the benefits are public for Ub3r, you can only see them once you've been accepted.

Assuming payments for Ub3r are taken the same way as l33t, it should work just fine. I was upgraded yesterday.

It's witza.com

Go to hackforums.net/ub3rupgrade.php and that will show you everything you need (after you click type in your name)

You have to be approved to see that but I'd go there.

I think that's the post he was looking for but some of that is outdated. For example, the post activity.

The benefits for ub3r is private, Read the Help Documents, "The benefits for ub3r will be given to those that qualify for the group only."

Ok guys, thanks for the help, but do i need to PM omni still about payment or something? Because he made a post a not long ago saying something about witza.com

Tenaxium - June 4, 2013, 12:20 pm

Sorry, what I said it not allowed.

Regards
