Thread: [Under the Influence \[Vector\]](#)

**Ink Heart** - June 4, 2013, 5:25 pm

Hey guys; it's been a while since i've posed a vector. This one took me quite a while to complete because I was experimenting with a few new vectoring methods.

Anyways, here is the finished version. Please let me know what you think. ?

**EricR** - June 4, 2013, 8:36 pm

Thats some pretty high quality stuff, did you do that in illustrator?

**Removed** - June 4, 2013, 8:40 pm

I think it looks good, don't know what else to critique. I guess there could be more of a message in the piece. But I'm thinking this was just for practice.

Anyways, great job!

It's one of a hell of an attractive vector ?

But there is only one thing I could criticize here, it's the teeth. I am not really sure why, but I don't think it's the best thing to have black lines around them.

Other than that, I'd give it a 10/10 ?

**iConnor3** - June 5, 2013, 11:37 am

i honestly think you post the best quality vectors around here, once again very nice.

**SciØn** - June 5, 2013, 12:18 pm

Yeah, I noticed that along with a few other problems after I made the thread, but I didn't have the time to fix them. I just put an updated version up with no black outline, and a few other fixes.

EDIT:

Sorry, but I have one more comment on the pic.

The door knob (handle), is it the best choice, or could something else look better?
