FB PAGES BLUEPRINT: Build Profitable FB Pages (30 Minutes a Day)

7-step steps included in this guide

Step 1: Brainstorm potential Page topics - Your Page must have a purpose and an intended audience. The GOOD NEWS is that the way I teach things, your topic can be about almost anything under the sun, and you'll still have an opportunity to make money along the way.

And don't worry...I provide you with a lot of jumping off points so you won't get stumped for ideas!

Step 2: Research and Validate your topics...then choose one - I'll show you my simple 2-step process for making sure that there's a hungry audience for your Page. This takes only a couple of minutes, since I show you a cool trick for finding the information you need to make a smart decision.

Step 3: Collect content - Notice I said "collect" and not "create" content. That's because your audience actually doesn't want your opinion, as much as they want you to provide them with the meaningful content they're too busy to find on their own.

Step 4: Create and launch your Page - Starting a Page is dead-simple...just the way Facebook wants it to be. But I don't want you to get confused or turned around, so I'll walk you through everything, one step at a time, just to make sure.

Step 5: Schedule your posts - This is the hands-off beauty of FB marketing, the way I teach it. You can actually schedule your posts days in advance, leaving you free to do whatever else in your life makes you happy.

Also, I'll give you my optimal posting times that ensure your Fans will gobble up, Like, and Share your posts.

Step 6: Build your audience - Without a fan base, all your awesome content might as well not exist. Bringing in fans is the #1 most important thing you can do. I show you some free ways to get fans...but free is slow, and free takes effort.

Step 7: Monetize your Page - Facebook is a versatile place for making money, and I make sure to cover plenty of ways you can monetize your audience.

You can forget all about "niche marketing," since Facebook's power is drawing in demographic audiences.
