Hey guys.

This is a free giveaway from me since the last one was succesfull.

This time it is a SMS sending service. You can send a message from any number to any number you want. (It works 99%). The site doesnt leave any ads in the message so it is really nice.

How to get it?

Just open the spoiler:

A simple thanks would be nice.

Why do you think it is for rep? I am doing this because I got many things from other people and I want to give back, and maybe some people dont know sites for that. I am not doing anything for rep. But if you think so I cant change your thoughts.

Edit: If you really want to help, why not just share the site?

I will continue with my green text because I like it. And you are right, I edited the thread and I posted the link.
