Thread: [Requesting Banners - \\$ Paid](#)

**Aeowulf** - June 7, 2013, 1:08 pm

Alright, I have a new GPT site out and I am in need of advertising and referral banners.

Site: <http://gptnow.com>

I am not requesting specifics because I am not creative and when I leave requests open to interpretation I usually get amazing results from those that are. I am requesting banners mostly 468x60 but others are acceptable as long as they are standard sizes.

Be creative and come up with something that you think will cause others to sign up.

All graphics that I like and use on the referral page will be paid for by way of coupon codes to be redeemed and withdrawn on site for Paypal withdrawal. If you want a specific amount, name it. If I want to meet it I will give it to you. If you don't care I will try to reward you enough.

Thanks. ?

\$2 is my fee, ill submit a watermarked advertisement banner for you, if you want a flash or animated banner we can talk but it will cost more.

Are you willing to accept payment through the promo code? Min. Payout is \$1 so \$2 would be cashed out in same time.

Also, any proofs of work? I don't want to pay for something I don't want or use.

Sent you a pm, if you do not want to use that form of communication im happy to keep it to pm's. I have found after posting my work in the free section i am spammed with a ton of pm's and requests which can be quite frustrating at times (one guy gave me negative rep because i didnt respond)
