Thread: [The Korean Manhwa compilation thread! \[All Well-Known Manhwas\]](#)

Layfon - June 9, 2013, 4:04 am

So yeah, I'm reading all of these (apart from killer stall), and I'll update it if any new ones come out. Post any suggestions below.

All of these are pretty epic, so try them out if you get the time.

Much more to add, coming soon.

Post your thoughts or your favorites below :) suggestions also appreciated.

Yay. Great thread. Tower of God is the best ofc.
Hope you will add more stuff soon

Elfen Lied - June 9, 2013, 6:52 am

Nice thread! I'm going to check out Noblesse :).

Hentai? - June 9, 2013, 7:42 am

I love it, thanks for all the suggestions man. ^ _ ^

Is there something about manhwa that you like specifically? I was going to read tower of god, but didn't like how the pages were set up (it took my phone a long time to render each page).

TL;DR(more like a rephrase): Why are you reading so many manhwa rather than manga?

Layfon - June 9, 2013, 8:58 am

Mainly because I've read most good manga. I do like them, just there running out, and Koreans know how to draw up some cool manwha and never run out of ideas.

To be honest, I just liked what I read, and they happened to be manwha.

Hentai? - June 9, 2013, 9:28 pm

Isn't manga and manwha basically the same thing though....

Layfon - June 9, 2013, 11:10 pm

Yeah guess not so different just the Korean equivalent

If you like it, you should check out Ability also (same writers).

Oloty - June 10, 2013, 1:13 pm

OP, spoiler that shit (or links?).
Also, the title is unnecessarily-objective.

Racr - June 10, 2013, 2:34 pm

I suggest you add Chunchu to that list asap.

It's my favorite. [http://myanimelist.net/manga/3210/Chunchu: The Genocide Fiend](http://myanimelist.net/manga/3210/Chunchu:_The_Genocide_Fiend)

I read a good amount of Girls of the Wilds but then I lost my place and never started reading again :/

Also read some of Noblesse and stopped.

charliehouse - June 10, 2013, 9:24 pm

Noblesse is an awesome manhwa but sadly it is on hiatus.

Layfon - June 10, 2013, 10:53 pm

Yeah waiting for noblesse to start back up. And I'll add chunchun when I get home

Onin42 - June 11, 2013, 12:30 am

The best manwha even manga for mim The Breaker!

Kono S o, Mi yo!

Break Blade (Manga) to bad, based on a novel. so not a big amount of chapters

Well dunno i'm talking about that, so good readings.

While many of the manwhas have good stories, they are all colored which in my opinion add to their awesomeness.

Hentai? - June 14, 2013, 9:45 pm

Think I will finally get around to starting noblesse here soon. :)

gorouchan - June 14, 2013, 9:46 pm

King of Hell should be added in here! It's pretty awesome

I have seen 80% of these manwhas and they were indeed entertaining. These manwhas falls under to the genres I love.

My favourites are : Noblesse, Ability, Magician (the author did improve a lot over the past three years), T.O.G, and The God of Highschool.

Other Manwhas I have seen: The Bride of the water God, and Shin Angyo Onshi.

You might also want to add a Chinese Manga which is named Feng Shen Ji, it is very good. For me, anyway.

Layfon - January 12, 2015, 9:47 am

wow I really need to update this with new stuff soon

Tedeschi - January 12, 2015, 10:23 am

You should check out Feng Shen Ji, Ares and Trace. Imo these three are all top 10 worthy or even top 5 worthy and I've read most of the Manhwa's you have listed.

tldr - January 12, 2015, 10:28 am

please dont forget the gamer, which is absolutely awesome!
