Hey guyz,

I'm thinking to start a crypt shop soon so I'm going to give free FUD crypts to people if they ask kindly so I can build up trust. Anyways I guess Just send me your bot via SKype or even ge.tt etc and I'll crypt it for you! Cheers and Enjoy

Inb4 your rep is bad, well that doesn't have anything to do with that I mean anyways this is a FREE service so what could happen? It's not like you can loose anything :D

why don't we just start out saying that you should be banned, minus 52 rep points, and you want to start a crypting service?
100% that your going to backdoor the crypts.

Why don't you read the Inb4 and see that im tygrin to be a better member?

No one is going to trust you with that rep.. I mean, I could MAYBE understand if a few people were just messing with you (and that's a LOT) but for god sake, no one will want their server crypted by you.

Your inb4 proves nothing. You could still easily attach your own server to your crypts, which people don't usually want.
