This babe is awesome at PS, has a great imagination too!

???? - June 13, 2013, 2:52 pm

I like them man, keep up the good work

Baghead - June 13, 2013, 3:50 pm

Wow did you take that picture? What kind of camera do you have?

ObscureCoder - June 13, 2013, 3:59 pm

OMFG I seriously thought it was gonna be like an edit with color correction, vibrance and shadows.. but then I seen the cartoon characters and I actually couldn't stop laughing.

LOL nice job.

LOL That's awesome xD

More - I added a casual picture too, since I've gotten good responses on this.

Deathsky - June 13, 2013, 10:31 pm

Can you send me .AI file of this?! I'd love to make this into a t-shirt

Yea, I like using the unnatural things to make pictures look cool xD

Thanks for the reply by the way <33.

Actually i find the first version much better than the casual

it has so much more action on it the casual looks beside the first like shit and is so boring maybe you could change something with the stars there is like a line where it just stops to have stars bring them down till to the moon and give the second moon a shadow like the earth has
