Thread: [Fix Netflix and Hulu section](#)

0cool - June 13, 2013, 2:58 pm

We really need to fix that section up... Almost everything posted there are asking for accounts. I thought the section was to talk about netflix and hulu movies/tv shows? Maybe we could have a sub forum that says "Requests" where they can request accounts there?

Toph - June 13, 2013, 3:52 pm

It's still to talk about "Netflix and Hulu movies, issues, accounts, and discounts".

If you want to talk about "netflix and hulu movies/tv shows" then just make a thread and someone may post in it. :)

Even though there's a bunch of request's for accounts its not at a rate where your thread wont be seen. :)

Or people can quit being lazy and go to the freebies and giveaway section? It's annoying I know that how you feel.

It does need to be cleaned up a little bit!

This is at least the third or fourth thread that I can remember about this. I don't think anything is going to happen anytime soon.

Is there any reason why? It doesn't seem hard to create a sub section in the netflix + hulu section.

No idea why honestly. I assume that staff and admins just don't think it's a big deal.

Basically I think it is used as a container for all the crap. If Omniscient would create a sub-forum it would encourage the activity, if he removed the section it would move elsewhere and make other sections much worse. I believe that is why the section is left as is. Just report the threads in the section and staff will deal with them.

OhSatan - June 15, 2013, 6:17 pm

There should be a section named Account Request in it so we can keep the regular section clean.

Staff have told members not to report the threads and leave it be. :)

Most of the Hulu+ and Netflix accounts are obtained illegally. I'm not even sure why they're allowed to be given away. A lot of it involves credit card fraud.

ovac - June 15, 2013, 9:11 pm

I agree,

They did this with the Xbox section for 48 hour requests.

Anyway, this has been suggested by [Webdev77](#) and myself previously and nothing has happened. Both gave good feedback, but nothing will happen yet.
