HOW WE'LL PROCEED

As you can see, the numbers (from 1 to 35) are placed randomly, which means that you choose a number, but you will know for what price you enter ONLY after choosing a number.

Here's proof that the numbers are already in the right place (I blurred the numbers to make sure that you can't know which number corresponds to which prices ?)

[img]http://i1034.photobucket.com/albums/a423/boulettebill/2013-06-13_195359_zps4d705d2b.png[/img]

I'll choose the winner with <http://www.random.org/lists/>. I'll put each number of a category in the window, I'll randomize the list, and the number that will be found at the top of the list will be the winner.

I'm going to film everything and upload the video on Youtube.

AVAILABLE NUMBERS

01 04 09 11 12 14 15 16 18 19 22 23 24 26 29 30 32 34

Good luck :)
