Thread: [\[TUTORIAL\] MASS INSTAGRAM ACCOUNTS CREATION](#)

Neat? - June 14, 2013, 5:25 pm

[img]http://i1034.photobucket.com/albums/a423/boulettebill/instagram_02_zpsc47a441e.png[/img]

I don't speak english very well, but I think you will be able to understand this tutorial.

TOOLS YOU WILL NEED

[xGramBOT](#)

[VirusTotal](#)

[Combo Maker Tool](#)

[VirusTotal](#)

A proxy list

A words list

(You can use [THIS](#) to build some custom wordlist)

(You can use [THIS](#) to build some IG bio list)

(You can use [THIS](#) to build some passlist)

Elweth - June 15, 2013, 12:06 am

Thanks for this tutorial, trying out now :)

WhatsAUsername - June 15, 2013, 4:07 am

All my results keep on timing out, so disappointed :(

Neat? - June 15, 2013, 5:21 am

This is probably because you used old/bad proxy mate.

PheedMeh - June 15, 2013, 7:36 am

Even if you use new proxies, somebody else will be using them to do the same thing.

The proxy will get blocked and accounts banned, sorry:/

Sylon - June 15, 2013, 8:32 am

Many thanks for the tutorial dude !

I'm going to try this... ?

Sylon. ?

PS: Merci le français ;)

DrenWarBoss - June 15, 2013, 1:03 pm

I'm glad you shared this tutorial. I've been looking for something like this. You rock!

Thanks heaps man, I found some new proxies, I am running them through the proxy checker built into xGram, and now I am about to make heaps of accounts, Thanks heaps brother,

AgentLulz - June 19, 2013, 4:27 am

When i try to download the xgrambot it tells me Temporarily unavailable

Apo Zer0 - June 19, 2013, 3:27 pm

thanks for the tutorial dude !

I'm going to try this.

wizsnipes - June 20, 2013, 6:05 am

Can someone do a written tutorial? I am confused lol

xForlornex - July 3, 2013, 2:08 pm

The "combo maker tool" seems to not be uploaded....

P?nda - July 3, 2013, 2:11 pm

Thanks for the tutorial, I'll be using this.

Kree-p - July 5, 2013, 4:55 am

Well written tutorial. Will try this out.

CyberKore - July 22, 2013, 7:41 am

xgrambot is died long time ago, that i know

Divert - July 23, 2013, 5:06 am

If your worried about that, find a private proxy list. ?

(Jul 22, 2013 07:41 AM)Shinsaku Wrote: [\[CITE\]](#) xgrambot is died long time ago, that i know

That's what I was thinking also, last time I launched it nothing at all worked or functioned.

Biologic - July 24, 2013, 11:14 am

This was a really big help thanks alot

Syroids - July 24, 2013, 3:14 pm

that's a pretty sweet tutorial. i might have to give it a try..

Dube - July 24, 2013, 5:27 pm

Nice tutorial I just tested it and it works perfectly

Hacktech01 - July 29, 2013, 11:45 am

Nice tutorial buddy. If people got problems with combo stuff, i can help you. I can create combo's up to 5k in no time :)

Helps - *July 30, 2013, 8:43 am*

Hey I've been using xGram for a while now. But now the mass liker isn't working because the new Instagram was released. Says I have to wait till xGram updates which isn't going to happen :/

Meester Plusser - *July 30, 2013, 10:40 am*

Bro, can u send me the Proxy list and thanks for this.

Merci.
