? PayPal Money Contest ?

Hello HackForums!

Today i'm going to be starting a contest. There will be 2 winners of this contest, the 2 winners will win \$5 each! And this contest is so easy to win! All you need to do, is post "#Money" below, and that will enter you in the contest to win the money! It's that easy. At the end of the week "sunday" i will go to random.org and i will have it generate 2 winners from the contestants, and i will also post a gyazo of the results on this thread once the contest is over. If you won, then i will private message you on HF, asking for your paypal email, then i'll send you \$5 reward!
