Thread: [\[Source\] Basic RAT source with flags \[Sexy\]](#)

MonEy - April 7, 2010, 9:09 am

Few of you don't know how to get flags on your RATs/Booters, so here's an example.

It already has Download & Visit.

Picture:

[IMG][http://i39.\[censored\].com/fnhk51.png](http://i39.[censored].com/fnhk51.png)[/IMG]

Features:

Add to Startup

Built in Stub

Visit

DL & Execute

Flags

WORKING Mutex

Builder

Looks Professional.

Needs adding: Remove the client from the listview when the server is closed.

When you stop listening/close the client then start listening again, the bot won't be added to the listview.

Credits: t0fx, matto.

NOTE: You MUST keep the GeoIP.dat with the client.

Download link: (Stops Leachers): <http://adf.ly/2iTU>

Enjoy.

Icy Wind - April 7, 2010, 9:11 am

I see more and more rat sources in VB.Net, fucking awesome!

Thanks for posting, didn't know this either :)

Results:

[img]http://i40.[censored].com/96x7wh.png[/img]

There is something wrong the rat source, i get this on mine too when i disconnect/start listening again.

Soul Collector - April 7, 2010, 9:15 am

Looks good, going to try this out and post results.

MonEy - April 7, 2010, 9:16 am

(Apr 7, 2010 09:15 AM)Soul Collector Wrote: [\[CITE\]](#) Looks good, going to try this out and post results.Thanks.

It connects fine, the flags are fine, but when the server closes, it doesn't remove from the listview.

If you/anyone could fix that, it would be nice. ^^

Gizmo - April 7, 2010, 9:17 am

Good work, keep it up.

Hope to see your RAT when it's finished :).

MonEy - April 7, 2010, 9:21 am

(Apr 7, 2010 09:17 AM)Gizmo Wrote: [\[CITE\]](#) Good work, keep it up.

Hope to see your RAT when it's finished :).If someone can help me with the disconnect bit (Remove them from listview) I will carry on with the project.

There is something wrong the rat source, i get this on mine too when i disconnect/start listening again.Yes, exactly.

If you close it, and re-open it, then start listening, it won't work.

That needs fixing too. xD

Soul Collector - April 7, 2010, 9:30 am

Nice, tested it and works nice... :)

MonEy - April 7, 2010, 9:32 am

(Apr 7, 2010 09:30 AM)Soul Collector Wrote: [\[CITE\]](#) Nice, tested it and works nice... :)Needs some things fixing though.

Icy Wind - April 7, 2010, 9:33 am

Lol, everyone's ignoring my post xD

But hey Redtube, when you press disconnect, just do:

Code ListView1.Items.ClearShould solve it pretty easy ^^

Mongrel - April 7, 2010, 9:36 am

now you call this HOT MAMA RAT

t0fx - April 7, 2010, 9:36 am

thanks for the flags ^^ nice work

Dark Molecule - April 7, 2010, 9:41 am

is this reverse connect..or no..i have a feeling its not but ill ask anyway :]

MonEy - April 7, 2010, 9:41 am

(Apr 7, 2010 09:41 AM)VendettaSoldier Wrote: [\[CITE\]](#) is this reverse connect..or no..i have a feeling its not but ill ask anyway :]Yes, it's t0fx's reverse connection.

Modesty - April 7, 2010, 9:43 am

Flags are the easiest things to add lmao, but this is pretty sexy.

MonEy - April 7, 2010, 9:44 am

(Apr 7, 2010 09:43 AM)P Y R O Wrote: [\[CITE\]](#) Flags are the easiest things to add lmao, but this is pretty sexy.I know, it wasn't hard.

But some people needed it, so I decided to post it.

Mongrel - April 7, 2010, 9:44 am

wonder it was easy to connect :D

Dark Molecule - April 7, 2010, 9:48 am

(Apr 7, 2010 09:41 AM)? RedTube ? Wrote: [\[CITE\]](#) Yes, it's t0fx's reverse connection.
o thts kool :] i think ill look into modifying this once i get my head wrapped around the source

There is something wrong the rat source, i get this on mine too when i disconnect/start listening again.I put that in the main thread.

You need to fix it. ^^

Sketchy - April 7, 2010, 10:42 am

(Apr 7, 2010 10:25 AM)? RedTube ? Wrote: [\[CITE\]](#) I put that in the main thread.

You need to fix it. ^^

O.o what do you mean?

0xE9 - April 7, 2010, 10:43 am

cant you just add geopip.dat in the resources then drop it at the startup and erase it on form closing?

MonEy - April 7, 2010, 10:56 am

(Apr 7, 2010 10:42 AM)AmIHacking Wrote: [\[CITE\]](#) O.o what do you mean?I meant it needs fixing.

(Apr 7, 2010 10:43 AM)Deadline Wrote: [\[CITE\]](#) cant you just add geopip.dat in the resources then drop it at the startup and erase it on form closing?If you want to.

This is just an example, do whatever you want to it.

Gino90 - April 7, 2010, 12:32 pm

That's awesome buddy, thanks for sharing.

Downloading.....

Yeah...Thanks i fixed it. I got it to connect now i need to fix the multi-connection

PS: I dont think the flags work on vista 64bit

[IMG]http://i41.[censored].com/do1gl3.jpg[/IMG]

Icy Wind - April 7, 2010, 12:38 pm

Meh, getting it to connect works anyway, no need for fixing.

It's the "after-disconnect-not-in-listview" issue that's annoying (Allthough, it get less and less frequent on mine o.O)

MonEy - April 7, 2010, 12:42 pm

(Apr 7, 2010 12:37 PM)AmIHacking Wrote: [\[CITE\]](#) If you want to.

[/quote]

Heh, I knew someone would make the error of deleting it. ^^

You're welcome.

Now we just need someone to fix it. (I'm still trying).

Lotos - April 7, 2010, 12:49 pm

Great share, keep it up.

King Ragnar - April 7, 2010, 12:50 pm

Nice RAT Redtube def gonna try it. when ur 100 % Done :) gj

rawi16 - April 7, 2010, 12:50 pm

what error are u trying to fix now ?

and thanks for the release .

Sketchy - April 7, 2010, 12:50 pm

(Apr 7, 2010 10:43 AM)Deadline Wrote: [\[CITE\]](#) cant you just add geopip.dat in the resources then drop it at the startup and erase it on form closing?

I recommend that you do not do that. anvir will detect as a dropper

Icy Wind - April 7, 2010, 1:07 pm

(Apr 7, 2010 12:50 PM)rawi16 Wrote: [\[CITE\]](#) what error are u trying to fix now ?

and thanks for the release .

Sometimes, almost every time you turn off/disconnect and turn it on again/connect your clients will be seen on the label, but not in the listbox. You cannot send commands or do anything with them in that state -.-

Although, it is almost gone from mine after messing around with the source
xD

Sketchy - April 7, 2010, 1:18 pm

(Apr 7, 2010 12:50 PM)rawi16 Wrote: [\[CITE\]](#) what error are u trying to fix now ?

Some known Bugs:

- Server doesn't reconnect
- Disconnected Server are not removed from listview
- Refresh doesn't really do anything (Server doesn't reconnect after restart)

That's what I know for now. Post errors/bugs
Correct me if I'm wrong

davido131 - April 7, 2010, 1:45 pm

What sources did you use to make this rat?

iKorkSkalle - April 7, 2010, 3:01 pm

This is awesome, thanks a lot for sharing!

???? - April 7, 2010, 3:07 pm

Thank you for this sexy share! ?

I got some errors, but it all at the end worked.

Sketchy - April 7, 2010, 7:03 pm

Cats R Kewl - April 7, 2010, 9:17 pm

I noticed a lot more RAT source's being posted in VB.Net and I love it. Thanks for making it easier for someone like me to make a RAT with vb.net. Nice post.

Modesty - April 8, 2010, 2:49 am

Add me on msn, I'll show you a much easier way to do the flags, no need for the external thing from tofx.

d7m@hotmail.co.uk

Panagiota - April 8, 2010, 8:34 am

Thanks for the source mate! Really helpfull.

CYSER - April 12, 2010, 10:04 am

Anyone did fix that yet? I'm working on malwares-in.net on it but I cant get to work that after two days.. seems logical for me oO

brianpsv1 - April 12, 2010, 11:24 am

Does the victim needs to have it portforwarded?

Or reverse connection?

Neophyte™ - April 12, 2010, 11:26 am

(Apr 12, 2010 11:24 AM)brianpsv1 Wrote: [\[CITE\]](#) Does the victim needs to have it portforwarded?

Neophyte™ - April 15, 2010, 12:04 am

I am not 100% sure, but wouldn't this work?

```
Code ToolStripStatusLabel2.Text = ListView1.Items.Count.ToString
Then it would show how many items (servers) there are.
```

tuhinfearnoevil - April 15, 2010, 12:50 am

could you explain more pliss...

what the different with MeTuS-Delphi-2.8???

confused...i think the preview is same with metus delphi but....aaargh

CYSER - April 15, 2010, 5:14 am

(Apr 15, 2010 12:04 AM)Neophyte™ Wrote: [\[CITE\]](#) I am not 100% sure, but wouldn't this work?

Code ToolStripStatusLabel2.Text = ListView1.Items.Count.ToString

Then it would show how many items (servers) there are.

thats actually working dude, the problem is the refreshing of the listview itself

Hli4S - May 3, 2010, 9:04 am

hello because i am new here.

and i don't know how to use this rat can anyone help me please.

CYSER - May 3, 2010, 9:32 am

go die or learn some basics.

MonEy - May 29, 2010, 9:19 am
