[if your cracking config was valid]

we need 3 tools for this Method

1-Proxygoblin

2-Frozen Proxy Checker

3-Proxyfire

OK let's get started,

1/First we run proxy goblin and start gather proxy's till reach 40-45 thousand proxy's

2/Move it to Notepad than We run Frozen checker and set timeout:10 and wait till get the wished Proxy's

3/we move it to Proxyfire Proxy-filter and we Filter it This will Remove duplicate and dangerous Proxy's

4/And we are done copy it to Notepad and enjoy your OWN VIP Proxy's

PS:its a perfect way to make Proxy's,i found Better Than HMA Proxy's

here's all the Proxy tools that you need for this Tutorials
