How To Make Spotify Premium Trials Last For Years

1. Install Spotify On You IOS Device
2. Fully Close The Application, Including Multitasking
3. Go Into Settings And Hit General, Then Date And Time
4. Use The Correct Day And Month But Change The Year To 2002 (This Seems To Be The Best Year For The Glitch, May Be They Started Their Website Or Something In 2002)
5. Open Spotify And Enjoy Your 4,000 Day Trial

This seems awesome. I changed the date but I have the one month free trial. Should I just make a new account and get the 48 hour free trail then change the date?

Thanks!

EyeSpy - July 10, 2013, 4:00 am

Does this work on Android also or is this limited to iOS?

Matt Honest - July 10, 2013, 4:23 am

Spotify started in 2007 lol, once you install and start the trial Spotify sets the expiry date, it doesn't have the start date, so if you set it to like 1380 or some shit you'll have years of it because it only has the end date saved.
