Thread: [So I'm playing the VN &\[b\]#34\[/b\];G-Senjou no Maou&\[b\]#34\[/b\]:...](#)

Arruke - June 21, 2013, 10:15 pm

Like the title suggests, I'm playing the visual novel G-Senjou no Maou, or, translated to english, "The Devil on G-String", which is a little play on the classical title "Air on G-String" composed by J.S. Bach. This has been a long time coming, I've just finally decided to sit down and play it. So far I'm just into chapter 3. I've only made a 2nd save for Tsubaki's chapter as the other heroines aren't interesting to me, although I'll probably still make saves for them when the time comes. For now I'm just playing for the true end and I can say that so far the storyline is really good, just as I anticipated. The soundtrack is awesome too, being a fan of classical music myself. I still can't wait to hear Usami play the violin :)

So, has anyone else here played this VN or has at least heard of it?

Eminent - June 21, 2013, 10:39 pm

Never heard of it, name makes it sound like a strange eroge though :p

Well, I tried to explain the title in the OP...

<http://vndb.org/v211>

If you like logic-games / battle of wits type things akin to something like Death Note or Paranoia Agent, I would say that you might be interested in this.

Seems interesting, my only question is have you hit any erotic scenes yet?

It is an eroge >.>

It isn't littered with them, however, they only take place once you get to each heroine's specific chapter, and I think I'm almost done with Tsubaki's chapter and there's only 2.

More story than erotic scenes, but it's still there.

I would compare it to having a little less than Shuffle, disregarding Kaede's arc. With that said, I haven't gotten to the true end yet.

Good, I'm excited then, I enjoy the erotic scene's but like uh... Yume Miru something something it pissed me off the game was 90% sex.

I have heard about it before. I actually have it downloaded already but haven't played it yet.

A lot of places recommended.

Levi - June 22, 2013, 9:30 am

The description is intriguing, I kinda wanna play it now.

#Doge - June 22, 2013, 9:52 am

Seems interesting. I might try it out later after downloading it.

I usually don't go for stuffs like this because I prefer Yuri especially the Hanabira series but this seems to be different.

Thanks for sharing.

Arruke - June 22, 2013, 11:08 pm

Well I just finished it and man was it awesome. I couldn't have asked for anything more, and this ending song just sealed it.

I would recommend this to anyone.
