Spoiler ([Click to View](#))BlackLife Wrote:I'd like the call this one of the most, if not the best coding development here on hackforums.

Simply nicest, quickest, and most efficient use of your time.
They have failed to disappoint and let me down.

I HIGHLY suggest hiring for a professional coding job.

Five stars, you amaze me.

Spoiler ([Click to View](#))Mr. P-teo Wrote:Vouch for this service 100%.

They were able to adjust the price to my financial situation, and even managed to finish the product in just a few days. I wasn't expecting anything like this but the overall quality of the finished product is unquestionable.

They were more than happy for me to spit the payment to avoid any risk of scam(WHICH DID NOT HAPPEN) and have sent me the source files along with the final application.

Dealing with this user was a pleasant experience and if i decide to have further programming work done in the future i will certainly give these guys a PM first. Top notch, thanks very much.

100% Good User that i would recommend to anyone.

Spoiler ([Click to View](#))Kussie Wrote:Vouch, he was very polite and got my order completed very fast. I recommend them.

Spoiler ([Click to View](#))Mordalum Wrote:Excellent work! Good design, great work with the PHP. Will definitely order from you if needed again.

If you are looking for reliable programmers a good choice would be Les Frères. They have good prices, works fast and the finished product is of good quality! I recommend them.

Visual Basic™ - June 27, 2013, 6:38 pm

I message you :) please reply ?

Stolidis - June 28, 2013, 7:41 am

I am reading about good programmer, excellent coders...please my friends, go and play with your toys...RESPECT to Erwan !!

He helped me with all the issues I had, the prices were just excellent, the communication was just perfect (even if he is in the other side of the planet from me).

This is what I called...PROFESSIONAL BUSINESS. No more words for him. Just a big +positive vouch!

Vouch for Les Freres, I work with them IRL. They are both very capable programmers.

TronX. - July 1, 2013, 3:33 am

Hey! I'm looking for a TF2 scrapbank bot, would this be possible to make?

If you need details on what this is, just PM me or add my skype: simondeath1

And I'd like to hear the price.

velox - July 7, 2013, 5:25 pm

I'm looking for some web developers to construct and build a site for my range of products to be

launching soon. I'd appreciate a PM with a rough price list, what each package (so to speak) allows and anything else I may need to know. Domain and hosting is already taken care of. No need for any SQL or accounts or anything of that sort. Just a nice dynamic website showing some products and an order form.

I hope to hear from you soon.
Thanks in advance.

Visual Basic™ - July 18, 2013, 9:28 pm
