I beat everyone's route except for Rin's and I believe I got all good and bad endings. Definitely a good starter VN.

Hentai? - June 23, 2013, 8:50 pm

Lily master race. Yah I only did lily because I liked her the most... I may have had tears in my eyes during her good ending....

I have only played Emi's route so far (Good end). I think I will try Rin's next.

I don't know when that will happen thought because my backlog is huge..

I liked Lily's and Shizune's most out of everyone's. Lily is definitely one of the best routes in the game.

King~ - June 23, 2013, 8:52 pm

Those who have played the game will understand ;_;

Fuck guys really?

I only did [Insert char name here] because it is best!

How the fuck do you know if it's the best if you've never played any of the other!

\Rant

OT: Very nice thread, I enjoyed Hanako's route the most, close 2nd would be Rin's route.

I don't need to try the others, the only other girl who interested me was emi because she was so cute.

I didn't really like Emi's route it didn't really appeal to me.

Spoiler [\(Click to View\)](#) Especially the awkward butt-sex.

B?nny - June 23, 2013, 9:07 pm

I had been waiting for a little over a year for the release, so I definitely enjoyed it considering i pulled an all-nighter to finish Hanako's route first.

The feels did affect me a bit(a week or two.) Not even close to as how hard Aeka's route on YMK hit me though. Good VN to play next for those who have only played KS.

I can't pick a favorite route between four of them. Shizune's route obviously not being in those four.

Wise words. Nerve-wracking when people judge routes based on character appearance, unless it has some significance to the genre of the visual novel you're playing.

Never take these kind of posts seriously.

On topic though, I've played pretty much all routes including bad and neutral ones (and of course the Deep End). Favorite would have to be Rin's neutral, closely followed by Hanako's good one.

Believe I've said this before, but the routes in this VN are all kind of.. bleh. KS is definitely amazing considering the fact it's a doujin soft, but in comparison to other pieces out there it's pretty mediocre.

Programmargorp - June 24, 2013, 2:16 am

I've done every single route except Shizune Route. I like Lilly too much to piss her off to get onto Shizune route :/

Either way, In terms of the stories, here's what I think :

Emi - Light Hearted, good for a casual story. Doesn't really excel in any way. Awkward Butt-sex.

Lilly - Best route out of the ones I've played. Best art too, ending was amazing.

Hanako - Twisted up with Lilly route, not as good as Lilly route. Second best route though.

Rin - Easily one of the weirdest things I've ever read. Didn't really like the art, a few laughs were had along the way though.

Overall, Rin's route had the most "realistic" story to say, but Lilly's route was just too good for me. Bare in mind that I haven't played Shizune route, so I'm basing my whole opinion on the four routes I have played.

Elfen Lied - June 24, 2013, 9:05 am

Never played this game. I would like to play it soon though. I have no school in a few weeks so I think I will dedicate a day or two to playing it.

Tsukaima - June 24, 2013, 8:23 pm

Done Emi, Good ending (I think ill only do good endings cuz im a softy)

I'm starting on Lilly because of a friends recommendation but im finding it hard to get into her arch I always end up back in emi's.

Maybe I just think shes too cute idk.

doungle - June 27, 2013, 7:22 am

Emi, Hanako, and Lily's route's have by far the most feels. If I had to pick a favorite... it would be Emi's route.

Rin had the most feels for me.

I tried it out for around an hour, but for some reason I just couldn't shake off this feeling of being really uncomfortable while playing it, so I just had to stop.

Kinda sad though, because it seems like a solid vl, might try and pick it up again later.

At first it does feel strange because you do fuck a bunch of disabled girls but keep in mind your character also has a disability.

Watch this review. He explains it better than I probably will.

It's not a kinky game where you date disabled girls because thats your thing. It is so much more than that. It really is a beautiful story that you kinda have to play to understand. I highly recommend finishing it.

BTW: You can disable the sex scenes in the options if that bothers you.

@Daryl Dixon: That's a horrible way to convince him to continue playing! lol

Misha had the worst story man. I couldn't believe her story and what a buzzkill it turned out to be.

Spoiler [\(Click to View\)](#) Seriously she turned out to be lesbian for Shizune and then you get Shizune's bad route cause you came onto her.

doungle - July 8, 2013, 6:17 pm

I preferred the Emi, Lily, and Hanako Routes... Rin's and Shizunes... kinda left something to be desired.

NotYourNormalApproach - July 8, 2013, 6:24 pm

I remember one of my friends playing that game. He srsly played it day and night.

In the end that game almost killed him.

Yet it's a good game if you're into such things "Burned girls, blind e.t.c".

Spoiler ([Click to View](#))It's the track captains lubricant she says. He's gay she says. God damn it emi. . I liked Lily's route a lot, it was cute as...something...kawaii. That's with multiple I's thus multiplying the kawaii.

Elweth - December 27, 2013, 1:30 am

Finished played Katawa Shoujo, my favorite routes are Emi and Lilly. Love the story a lot. Would say it's very well done despite it being made by a group of vn fans~ ^_^

doungle - December 27, 2013, 9:58 pm

I completed this ages ago. Route order for me was Emi, Hanako,Lily,Shizune, Rin. I still think Emi is my favorite girl

Hentai? - December 27, 2013, 10:27 pm

Grave dig

And Lily best route, not open for debate, it's a fact, not an opinion.
